

1. Strengthen governance

Establish a functional multisectoral coordinating mechanism and technical working groups with clear terms of reference, budget and an accountability framework.

2. Prioritize activities

Initiate a consultative process to prioritize activities based on an assessment of the current situation, resources available, and the impact and feasibility of activities.

6. Monitor and evaluate

Periodically monitor and evaluate progress in implementing the plan or activities, communicating progress and lessons learned.

6 STEPS

FOR SUSTAINABLE IMPLEMENTATION OF NATIONAL ACTION PLANS ON ANTIMICROBIAL RESISTANCE

3. Cost the operational plan

Develop, cost and budget an operational plan that includes prioritized activities, who is to do what, when and where, and integrates existing funding sources.

5. Implement prioritized activities

Work with internal and external stakeholders to sustainably implement the prioritized activities.

4. Mobilize resources

Map existing and potential funders, advocate to fill the funding gap and where possible leverage domestic financing through other national plans and budgets.
