ILO STANDARDS AND PRODUCTION OF OSH STATISTICS

P155 - Protocol of 2002 to the OSH Convention, 1981

III. NATIONAL STATISTICS

Article 6

Each Member which ratifies this Protocol shall, based on the notifications and other available information, publish annually statistics that are compiled in such a way as to be representative of the country as a whole, concerning occupational accidents, occupational diseases and, as appropriate, dangerous occurrences and commuting accidents, as well as the analyses thereof.

Article 7

The statistics shall be established following classification schemes that are compatible with the latest relevant international schemes established under the auspices of the International Labour Organization or other competent international organizations.

ILO STANDARDS AND PRODUCTION OF OSH STATISTICS

C187 - Promotional Framework for OSH Convention, 2006

III. NATIONAL STATISTICS

Article 6

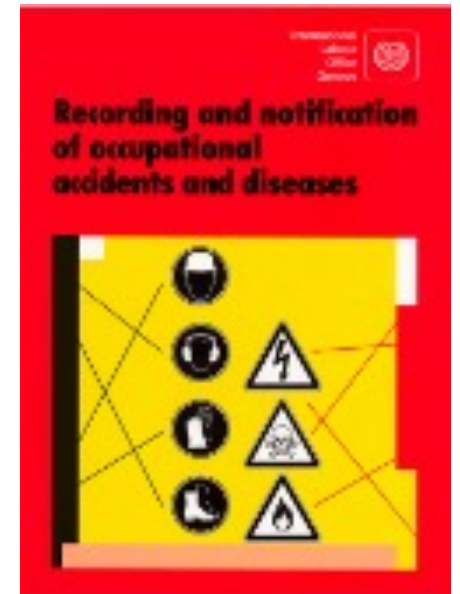

Each Member which ratifies this Protocol shall, based on the notifications and other available information, publish annually statistics that are compiled in such a way as to be representative of the country as a whole, concerning occupational accidents, occupational diseases and, as appropriate, dangerous occurrences and commuting accidents, as well as the analyses thereof.

Article 7

The statistics shall be established following classification schemes that are compatible with the latest relevant international schemes established under the auspices of the International Labour Organization or other competent international organizations.

RECORDING AND NOTIFICATION OF OCCUPATIONAL DISEASES

- Enterprise, establishment and employer
- Person affected by the occupational disease
- Occupational disease
 - Name and nature of occupational disease
 - Harmful agents, processes or exposure to which the occupational disease is attributable
 - Description of work which gave rise to the condition
 - length of exposure to harmful agents and processes
 - date of diagnosis of the occupational disease.

[Code of Practice for recording and notification of occupational accidents and diseases](#)

A NEED FOR A STANDARD CLASSIFICATION

Production of reliable comparable data based on standard classifications

**Identification
of priorities to
optimize
interventions**

**Monitoring
and evaluation
of preventive
measures**

**Easy access
to rights:
Compensation**

ICD AND CLASSIFICATION OF DISEASES

- **Silicosis**
 - Silicosis
 - Pulmonary fibrosis
 - Caplan- Collinet Syndrome
 - Erasmus Syndrome
 - Mineral pneumoconioses....

ICD-11 Coding Tool Mortality and Morbidity Statistics (MMS) 2021-05

Help

CA60.0Z Pneumoconiosis due to dust containing silica, unspecified

Code: CA60.0Z

Exclusions from above levels [Hide all](#)

- with tuberculosis (1B10-1B1Z)
- Asthma (CA23)
- Endocrine, nutritional or metabolic diseases (05)
- Congenital malformations, deformations and chromosomal abnormalities (20)
- Injury, poisoning or certain other consequences of external causes (22)
- Certain conditions originating in the perinatal period (10)
- Certain infectious or parasitic diseases (01)
- Complications of pregnancy, childbirth and the puerperium (18)

Matching Terms [Show all \[7\]](#)

Silicosis NOS
 complicated **silicosis**
 nodular **silicosis**
 simple **silicosis**
 fibrosis of lung with **silicosis**

Related categories in maternal chapter
 Diseases of the respiratory system complicating pregnancy, childbirth or the puerperium / Pneumoconiosis due to dust containing silica, unspecified (J864.5/CA60.0Z)

Postcoordination

Laterality (use additional code, if desired)

- XK9J Bilateral
- XK8G Left
- XK9K Right
- XK7D Unilateral, unspecified

05 Endocrine, nutritional or metabolic diseases
 06 Mental, behavioural or neurodevelopmental disorders
 07 Sleep-wake disorders
 08 Diseases of the nervous system
 09 Diseases of the visual system
 10 Diseases of the ear or mastoid process
 11 Diseases of the circulatory system
 12 Diseases of the respiratory system
 Upper respiratory tract disorders
 Certain lower respiratory tract diseases
 Lung infections
 Lung diseases due to external agents
 CA60 Pneumoconiosis
 CA60.0 Pneumoconiosis due to dust containing silica
 CA60.00 Pneumoconiosis due to talc dust
 CA60.0Y Other specified pneumoconiosis due to dust containing silica
 CA60.0Z Pneumoconiosis due to dust containing silica, unspecified
 CA60.1 Coal worker pneumoconiosis
 CA60.2 Pneumoconiosis due to mineral fibres including asbestos
 CA60.3 Pneumoconiosis associated with tuberculosis
 CA60.4 Aluminosis of lung
 CA60.5 Bauxite fibrosis of lung
 CA60.6 Berylliosis
 CA60.7 Graphite fibrosis of lung
 CA60.8 Siderosis
 CA60.9 Stannosis
 CA60.Y Other specified pneumoconiosis
 CA60.Z Pneumoconiosis, unspecified
 Pneumonitis
 CA80 Airway disease due to specific organic dust
 CA81 Respiratory conditions due to inhalation of chemicals, gases, fumes or vapours

► ICD-10 IN OCCUPATIONAL HEALTH: CHALLENGES

- Specific training
- Complex process to find the right code
- Correspondence between the list of occupational diseases and the codes
- Codification of disease associations

ICD-11 IN OCCUPATIONAL HEALTH: TOWARDS RELIABLE DATA AND INTEROPERABILITY ON OSH DISEASES AND INJURIES

- Digital Platform
- Ease and accuracy of coding requiring less user training
- Suggest changes or additions to ICD–11
- Complementarity between public health and occupational health systems
