

Permission to promote country commitments on social media

"The climate change extreme effects and damages on the public health of São Tomé and Príncipe population, require urgent multisectoral integrated measures and actions alongside the communities engagement with partners, to be low carbon ensuring and to increase the resilience, both on the National Health System"- Edgar Manuel Agostinho Azevedo das Neves, Health Minister;

Dear Dr. Dave McConalogue,

In representation of the Health Ministry and myself as the São Tomé and Príncipe Democratic Republic Health Minister, I give the permission to publish my signed Commitment Letter as part of the COP26 health programme initiatives, within WHO's and FCDO's main communication channels.

Yours Sincerely

Edgar Manuel Agostinho Azevedo das Neves

Minister of Health

Democratic Republic of São Tomé and Príncipe
