

Social determinants of health webinar series:
Fuel poverty, homelessness and informal settlements:
how housing affects health equity

WHO's activities on housing and health

Dr Nathalie Roebbel

Housing determines health inequity

LET'S WORK TOGETHER FOR HOUSING CONDITIONS THAT PROMOTE HEALTH

To improve housing conditions we need to

-  1. define standards, regulations and building codes that protect residents' health
-  2. work across national, regional and local government levels
-  3. collaborate across sectors such as housing, health and energy

partners from the public, private and civil society sectors including public professionals, social housing services, consumer protection agencies, urban planners, construction industry, policy-makers, home owners

Y HOUSING FOR A SUSTAINABLE FUTURE #EnvironmentalHealth

Measures to reduce health risks from poor housing include changes to the built environment and the introduction of loans and subsidies to support these changes.

These **WIN-WIN** strategies are fundamental to achieving the Sustainable Development Goals.
