*Data for public health response*

## Acknowledgements

# Acknowledgements

The WHO Global Clinical Platform for COVID-19 aims to inform the clinical characterization and management of patients, and the public health response to COVID-19, through the analysis of anonymized clinical data of patients with suspected or confirmed SARS-CoV-2 infection.

As of the 1 March 2023, the following health care facilities/collaborators around the globe (in alphabetical order) have contributed clinical data to the WHO COVID-19 Clinical Data Platform. The WHO would like to extend sincere thanks to all the contributing facilities and collaborators.
