

## WHO STIs sessions at STI & HIV 2023 World Congress

Chicago, USA (24-27 July 2023)

### Agenda

#### **Monday July 24<sup>th</sup>, 2023**

##### **Part 2: 10:30 – 12:00 – Enhanced Gonorrhoea AMR Surveillance**

The Enhanced Gonorrhea Antimicrobial Resistance Surveillance Programme (EGASP) aims to strengthen monitoring of AMR in *Neisseria gonorrhoeae* to ensure standardized and comparable data globally through establishing EGASP in sentinel countries globally.

During the session, the EGASP methodologies and patterns of resistance in *Neisseria gonorrhoeae* in sentinel countries and implications in national AMR response will be presented.

Partners: US CDC DSTDP and WHO (including WHO collaborating centers in Australia and Sweden)

**Chairs: Ismael Maatouk (WHO, Switzerland) and Robert McDonald (CDC, USA)**
