

Global mandate for  
strengthening

# Emergency, Critical and Operative (ECO) care

Impact over half of all  
**deaths** in low and middle  
income countries

Help governments to  
**progress towards 10**  
SDG targets

Are essential for  
**preparedness for and**  
**response to emergencies**

Ensure **timely and targeted**  
**action** to provide people the  
care they need

Meet people's **health needs**  
and integral to the **primary**  
**health care** approach

The 76th World Health Assembly passed  
resolution 76.2 to globally strengthen the planning  
and provision of integrated ECO care as part of  
universal health coverage, to meet population  
health needs, improve health system resilience and  
ensure protection from health emergencies.

**World Health  
Organization**
