

# Why join The Global SPECS Network?

**#1**

## **Influence and advocate**

- Co-develop eye health and refractive error advocacy messages and activities alongside other organizations
- Promote and support WHO SPECS 2030 activities and events
- Increase support among members to create a stronger voice to advocate for eye care and refractive error

**#2**

## **Connect, share and learn**

- Connect and collaborate with other members who work in eye care and refractive error
- Share knowledge and experiences among other members
- Participate in discussions with the potential to reshape the refractive error space
- Access the WHO SPECS 2030 products

**#3**

## **Be recognized**

- Receive recognition of your organization's contribution from WHO
- Receive acknowledgement of your organization on the Global SPECS Network webpage, and in printed materials, including the annual report

**#4**

## **Increased visibility**

- Widen the scope and influence of the work your organization does in eye care
- Increase the visibility of your organization, by developing a member profile and showcasing your work through the Global SPECS Network

**#5**

## **Benefit for other networks and partnerships**

- Identify potential areas of collaboration between your work and other members and sectors
