

Basic Emergency Care Webinar

Undergraduate to Postgraduate to Continuous Professional Development

Nursing and Midwifery Global Community of Practice (NMGCoP)

The webinar will highlight the impact of the WHO/ICRC Basic Emergency Care (BEC) training, share lived experiences from clinicians delivering and receiving BEC training and discuss how to integrate this training into undergraduate & postgraduate programs and continuous professional development. Hear practical implementation experience on how to sustainably integrate the BEC into health worker training.

Key takeaways:

- Importance and impact of BEC training for nurses and midwives
- Strategies for broader adoption and sustainable integration into current training
- Opportunities for global collaboration to enhance emergency care training

Please do not miss this opportunity to be part of a global effort to improve healthcare outcomes through better training for nurses and midwives.
