

Implementation of Decision WHA70(10) 8(b) Guide to the body of Evidence

During implementation of the PIP Framework, WHO has collected considerable evidence relevant to the topics under review in *WHA70(10)(8)(b)*. It has been compiled as follows :

Compilation I. [Seasonal Analysis](#)

- Excerpts from transcripts of interviews with the 2016 PIP Framework Review Group
- Excerpts from Member State and stakeholder written submissions to the 2016 PIP Framework Review
- Excerpts from Member State interventions at the Seventieth World Health Assembly
- Excerpts from Member State and stakeholder written submissions to the Nagoya Study

Compilation II. [GSD Analysis](#)

- Excerpts from transcripts of interviews with the 2016 PIP Framework Review Group
- Excerpts from Member State and stakeholder written submissions to the 2016 PIP Framework Review
- Technical Expert Working Group (TEWG) on genetic sequence data - Excerpts from stakeholder submissions
- Technical Working Group on the sharing of genetic sequence data (TWG) - Excerpts from Member State and stakeholder submissions on “*Draft optimal characteristics of an influenza genetic sequence data sharing system under the PIP Framework*”
- Excerpts from stakeholder submissions on “*Options to monitor the use of genetic sequence data from influenza viruses with human pandemic potential (IVPP GSD) in end-products*”

Compilation III. [PIP Advisory Group work on GSD under the Framework](#)

- PIP Advisory Group observations and recommendations to the Director-General
- Excerpts of findings from the TEWG report on genetic sequence data
- Excerpts from the TWG report
- Excerpts from “*Options to monitor the use of genetic sequence data from influenza viruses with human pandemic potential (IVPP GSD) in end-products*”

Other information used in the development of the Scoping Paper includes:

- [Report of the 2016 PIP Framework Review Group](#)
- [Implementation of the Nagoya Protocol and pathogen sharing: public health implications: study by the Secretariat](#) (“Nagoya Study”)
- [Collaboration with the Secretariat of the CBD and other relevant international organizations - Report by the Secretariat](#)
- [WIPO patent search report on Pandemic Influenza Preparedness Framework \(PIP\)-related patents and patent applications](#)
- [WIPO, Working Paper: Patent Issues related to influenza viruses and their genes: An overview](#)

Every effort has been made to be as inclusive, balanced and thorough as possible while recognizing the need to maintain a focus on the topics relevant to the Scoping Paper. Member States and stakeholders are encouraged to contact the Secretariat at pipanalysis@who.int regarding issues or comments on the content of these documents which should be considered to be living documents.
