

Applying Foresight to reach SDGs: A global public health perspective

4 May 2023

8:15 - 9:30AM EST

**UN Headquarters, UN Operations
and Crisis Centre (UNOCC) Crisis
Room A (S-07-CRA) on the 7th floor
of the Secretariat**

Register to join **online or **in person****

In our evolving world, Foresight allows us to explore trends, changes, and impacts while envisioning alternative futures. Foresight can help us work together to be better prepared, better respond, and build a future that benefits all.

Join WHO, the Executive Office of the UN Secretary-General, Global Affairs Canada and partners as we discuss the role of Foresight in global health, showcase Foresight activities, reflect on futures thinking, and identify opportunities for greater use of Foresight approaches.
