1. Global Situation

Globally, as of 10:06 PM, 26 October 2020 there have been 42,966,344 confirmed cases of COVID-19, including 1,152,604 deaths received by WHO from national authorities. USA, the world's worst hit country, has counted 8,485,747 (82,626) cases with 223,328 (821) deaths reported to WHO. While, France reported the second highest new cases (52,010) and India reported second highest new deaths (480) at the same cut off time.

The figure below is showing the weekly number of reported new death of COVID-19 by WHO region, 01 January – 26 October 2020

The figure below shows top ranked countries for total cases of confirmed COVID-19, deaths and new cases, 01 January – 26 October 2020

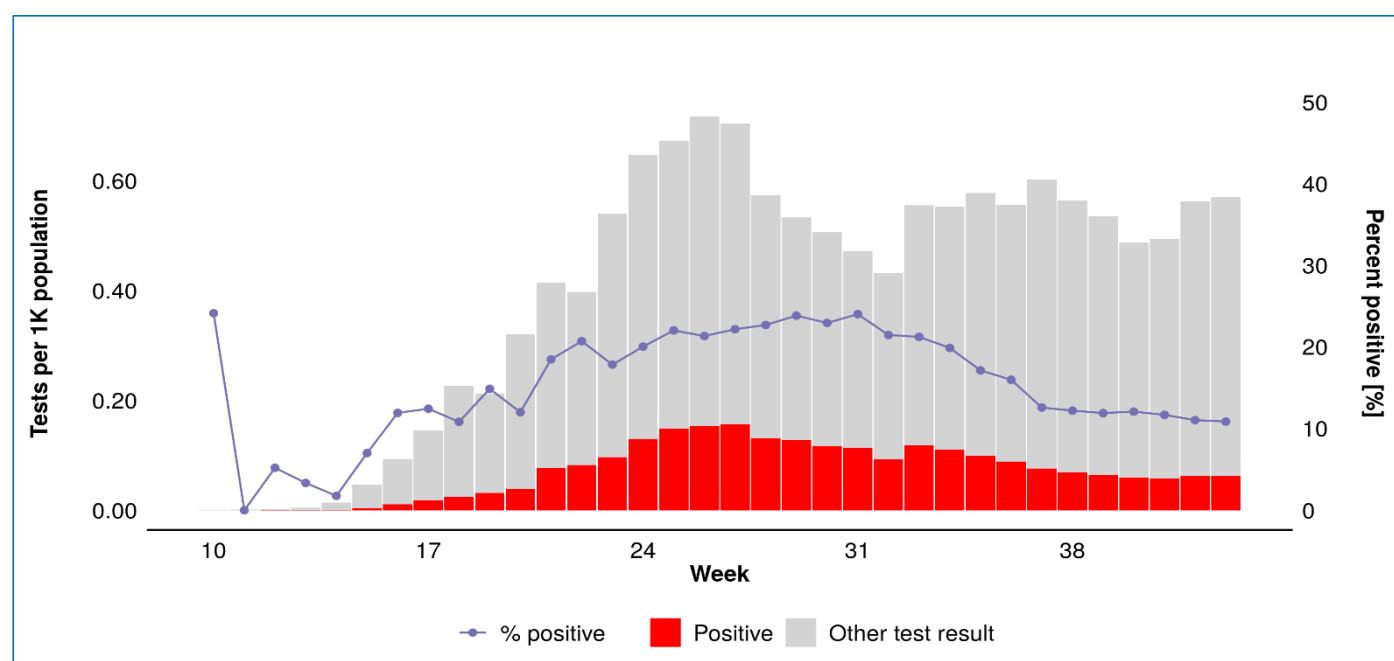

2. Bangladesh Situation

Between 8 March and 26 October 2020, according to the DGHS Press Release <<https://corona.gov.bd/press-release>> there were four hundred thousand two hundred fifty-one (**400,251**) COVID-19 confirmed by rRT-PCR, including five thousand eight hundred eighteen (**5,818**) related deaths (**CFR 1.80%**). Bangladesh is the top 18th country in the world and accounts for about 1% of the COVID-19 disease burden in the world.

The figure below is showing the daily reported confirmed COVID-19 cases and deaths, 08 March – 25 October 2020, Bangladesh

The figure below is showing the daily reported confirmed COVID-19 cases and deaths, 08 March – 25 October 2020, Bangladesh

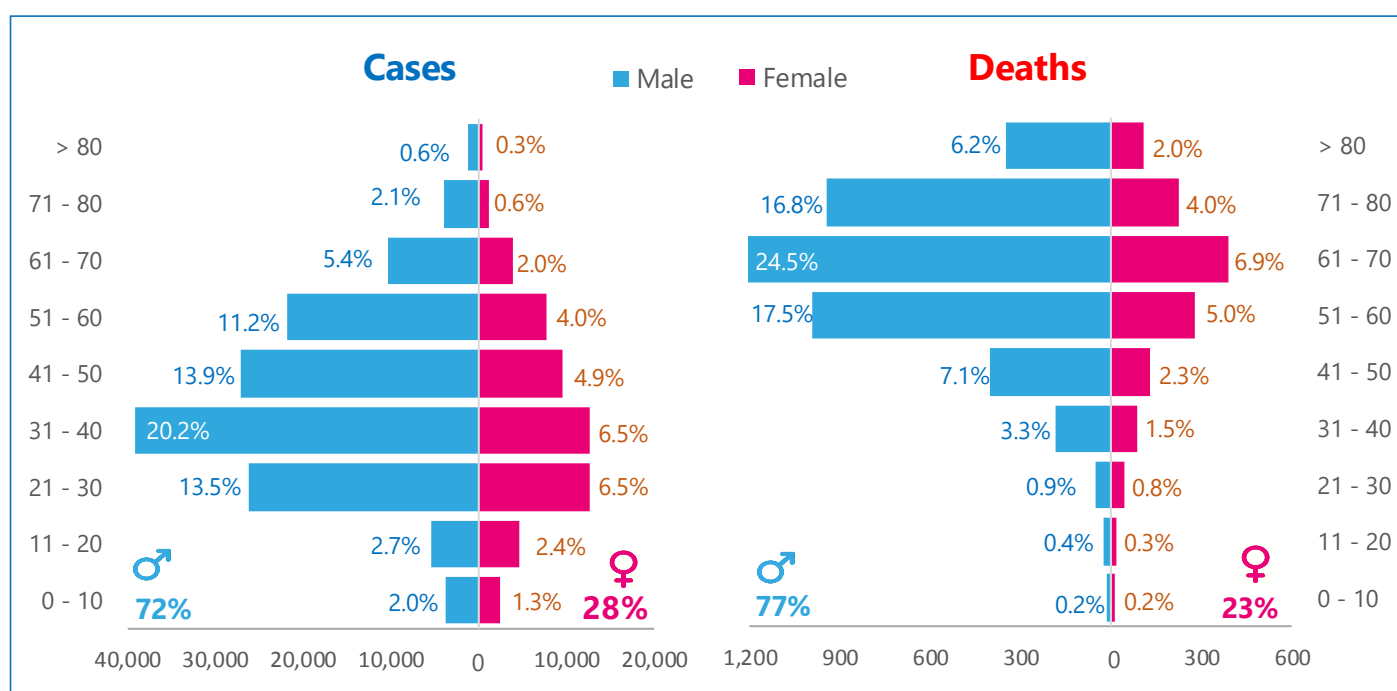

In the epidemiological week 43, number of new cases in Bangladesh is **10,246**; case per million population per week is **60**. New death is **143**; death per million per week in **0.8**. Weekly new tests is **94,021**; tests per million per week is **552**; weekly test positivity is **10.9**.

3. Surveillance & Laboratory

In the reported week (epidemiological week 43), in comparison to the previous epidemiological week, the number of new weekly COVID-19 cases **decreased** by **0.55%** (**10,246** in week 43 and **10,303** in the previous week) while the number of COVID-19 new weekly deaths **increased** by **5.1** (**143** and **136** respectively); IFR is **constant** at **1.46%** in the current week while the Case Fatality Ratio (CFR) **decreased** from **1.83** last week to **1.81** in the current week.

As of 26 October 2020, among the reported cases **26.7%** cases were confirmed in people between 31 and 40 years old, **20.0%** - in the age group of 21 to 30, **18.9%** - 41 to 50 years and **15.2%** in the age group between 51 and 60 years old. The highest death rate (**31.4%**) was reported in the age group of 61 to 70 years old, **29.0%** in the older age group of 71 and above and **22.5%** - in the age group between 51 and 60 years. Male represented **72%** and **77%** of the of total reported confirmed COVID-19 cases and deaths respectively.

The figure below is showing Age-Sex distribution of COVID-19 cases and deaths, 08 March – 26 October 2020, Bangladesh

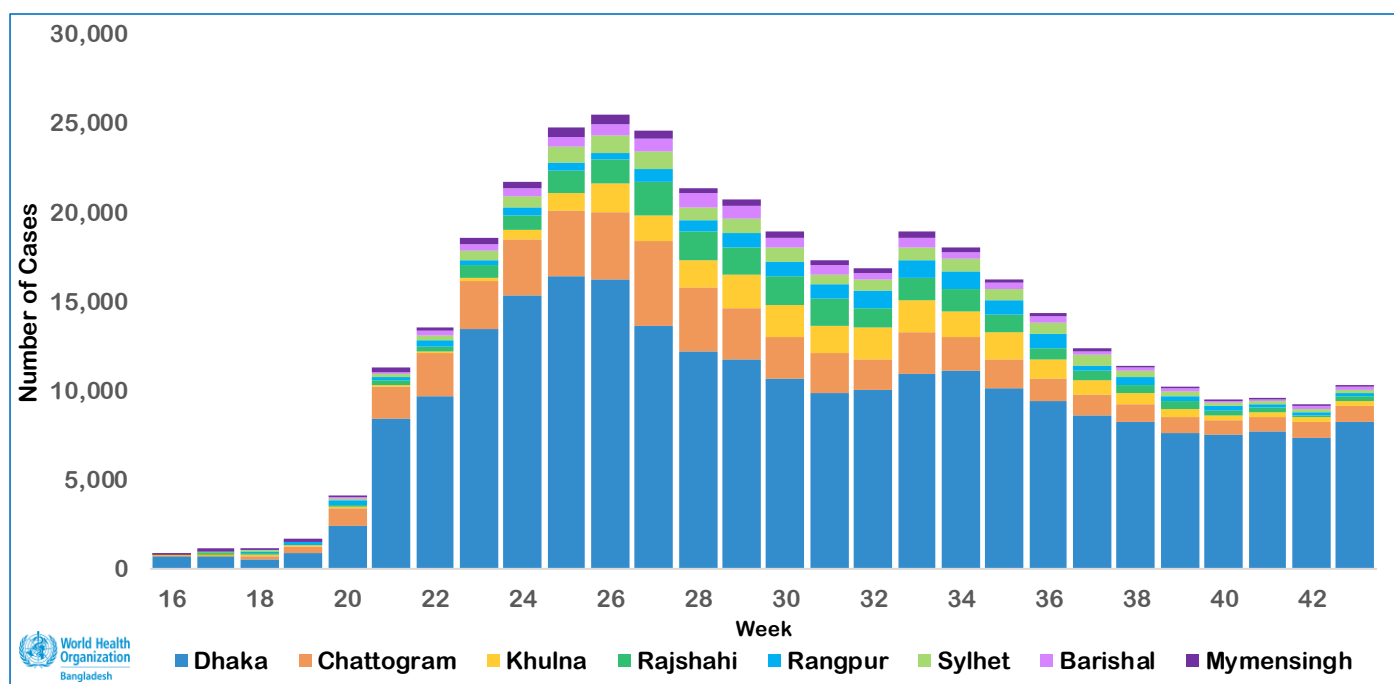

The table below is showing divisional distribution of COVID-19 case and death, 08 March – 26 October 2020, Bangladesh

| Division | Cumulative | | | Week 42 | | |
|--------------|----------------|--------------|-------------|---------------|------------|-------------|
| | Cases | Death | CFR (%) | Cases | Death | CFR (%) |
| Dhaka | 265,312 | 2,969 | 1.12 | 8,785 | 114 | 1.30 |
| Chattogram | 50,192 | 1,182 | 2.35 | 1,864 | 32 | 1.72 |
| Khulna | 22,586 | 469 | 2.08 | 440 | 14 | 3.18 |
| Rajshahi | 20,833 | 370 | 1.78 | 522 | 10 | 1.92 |
| Sylhet | 13,042 | 242 | 1.86 | 416 | 2 | 0.48 |
| Rangpur | 12,807 | 261 | 2.04 | 440 | 8 | 1.82 |
| Barishal | 8,803 | 204 | 2.32 | 206 | 0 | 0.00 |
| Mymensingh | 6,676 | 121 | 1.81 | 128 | 4 | 3.13 |
| Total | 400,251 | 5,818 | 1.45 | 12,801 | 184 | 1.44 |

As of 26 October 2020, **66.3%** of reported cases were from **Dhaka** division, **12.5%** from **Chattogram**, **Khulna – 5.6%**, **Rajshahi – 5.2%**, **Sylhet – 3.3%** and **Rangpur – 3.2%**, **Barishal – 2.2%** and the lowest **1.7%** from **Mymensingh** division. While, **51.0%** of the reported death were from **Dhaka** division, **20.3%** from **Chattogram**, **Khulna – 8.0%**, **Rajshahi – 6.3%**, **Rangpur – 4.5%**, **Sylhet – 4.2%**, **Barishal – 3.5%** and the lowest **2.1%** from **Mymensingh** division.

The figure below is showing the weekly reported confirmed COVID-19 cases by division, 13 April – 25 October 2020, Bangladesh

The highest number of weekly cases (**25,481**) reported in epi-week **26** (22-28 JUN 2020) while the highest weekly death (**314**) recorded in the following week **27** (29 JUN – 05 JUL 2020). During last week cases in Dhaka division increased by **11.4%** and death increased by **11.3%**.

The figure below is showing the weekly reported confirmed COVID-19 deaths by division, 13 April – 25 October 2020, Bangladesh

As on 26 October 2020, Bangladesh overall attack rate (AR) is **2,291** per 1 million and **100% (64/64)** of districts with the estimated total population of 170,306,468 have reported confirmed COVID-19 cases. In the reported week (epidemiological week 43), COVID-19 weekly average AR (2,342) increased by **2.6%** in comparison to the previous week.

The table below is showing Attack rate per million by District, 08 March – 26 October 2020, Bangladesh

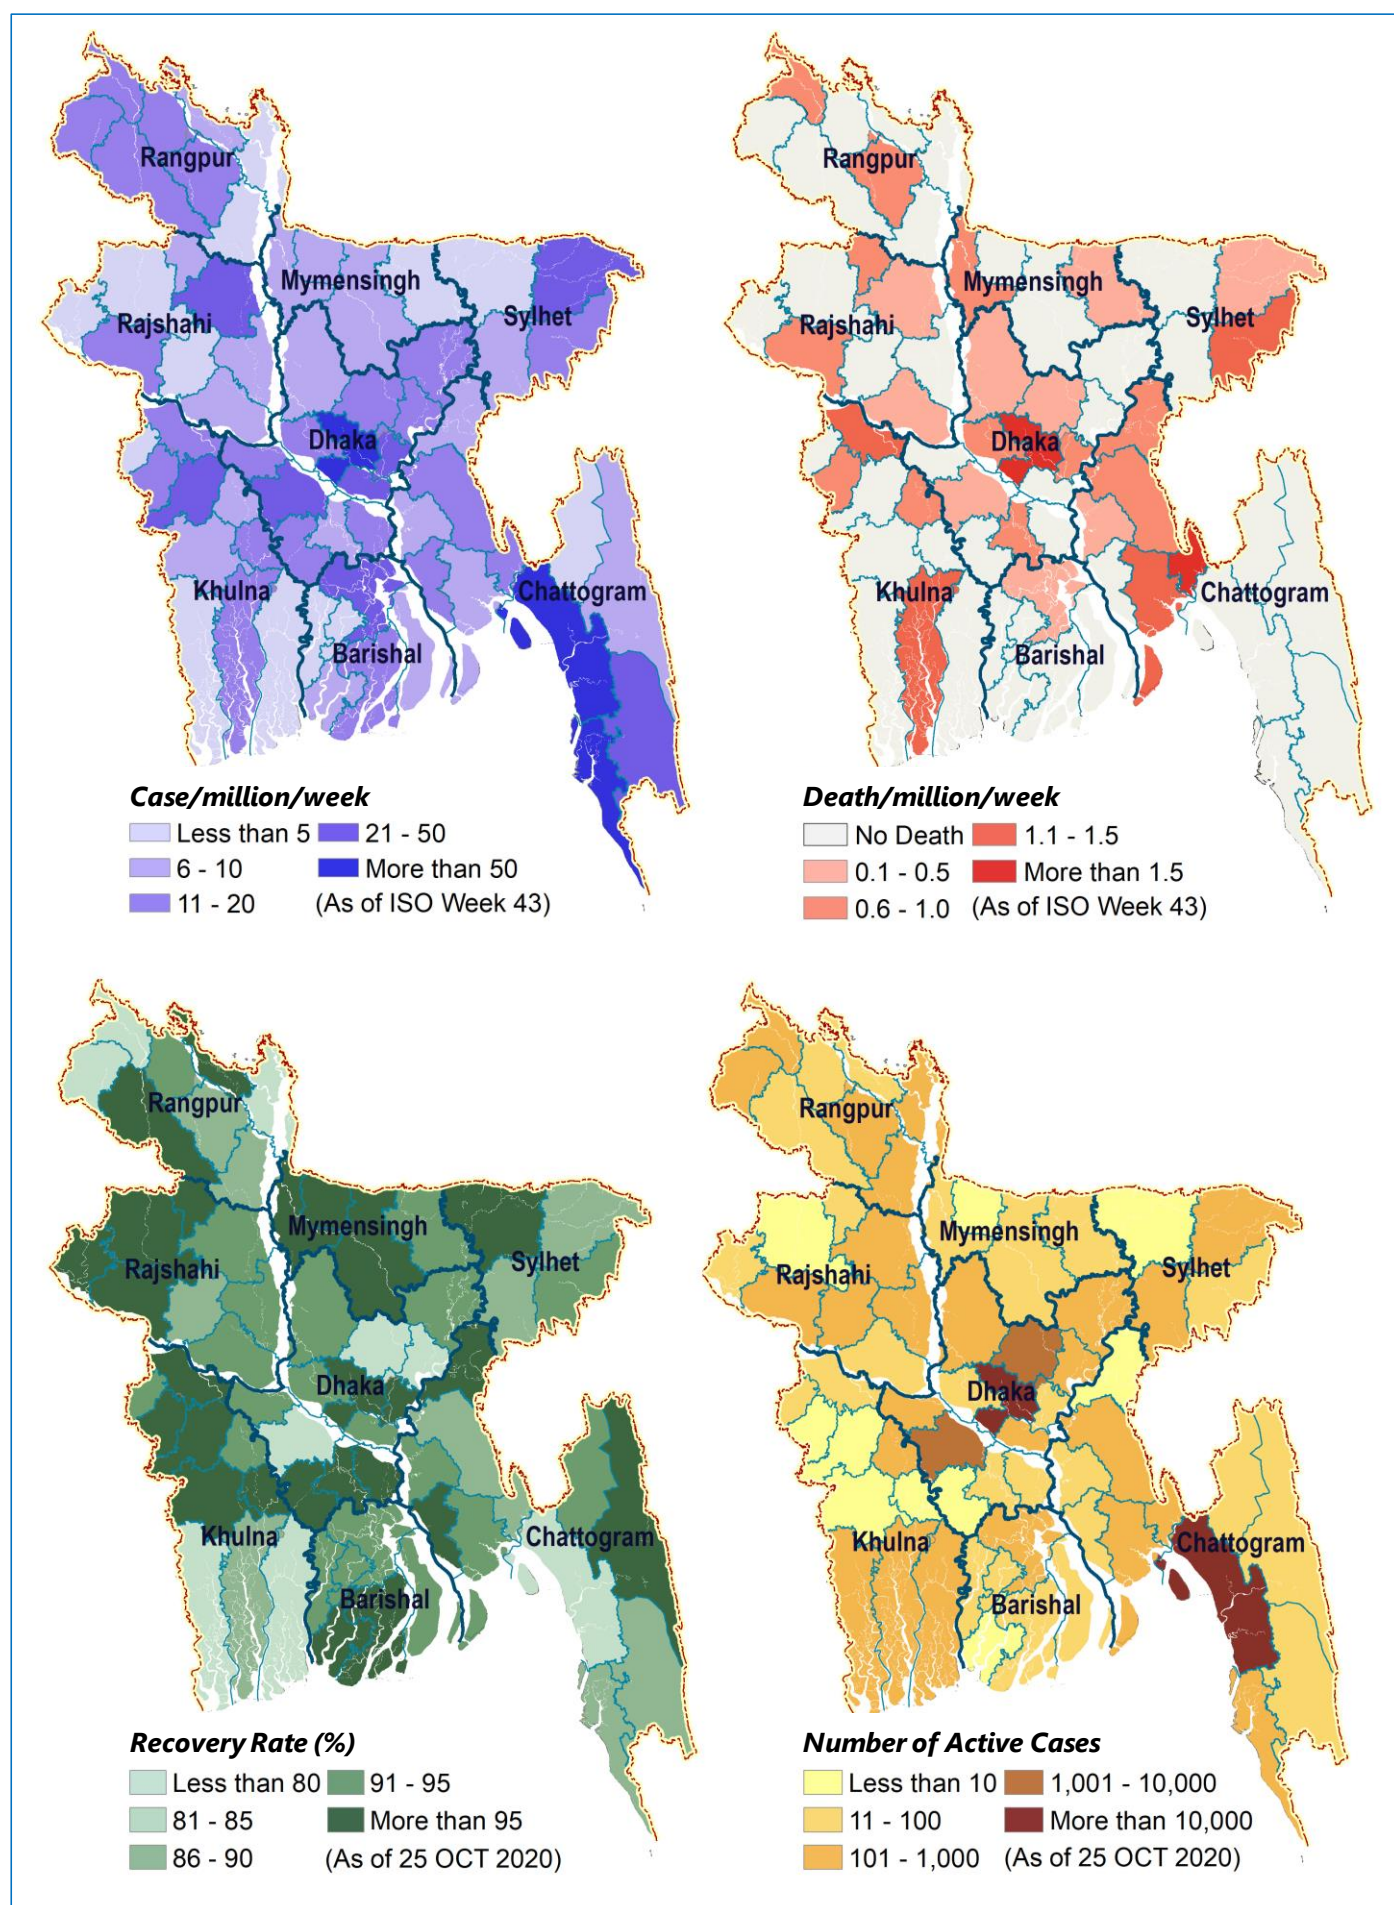

| Dhaka div. | 6,106 | Chattogram div. | 1,488 | Khulna div. | 1,215 | Sylhet div. | 1,108 |

4. Points of Entry & Quarantine

In the reported week (epidemiological week 43), the number of international flights has decreased by **0.8%**, in comparison to the previous week (**118** and **119** respectively) leading to decrease in the number of incoming passengers by **0.8%** (**21,981** and 22,117 respectively). In the reported week **383** individuals were sent to Institutional Quarantine after passenger screening at the Hazrat Shahjalal International Airport (HSIA).

The figure below is showing the incoming flights and passengers arrived, 27 April – 26 October 2020, Bangladesh

According to DGHS, as of 26 October 2020, the current institutional quarantine capacity in the country is represented by **629** centres across the 64 districts, which can receive **31,991** persons. A total of **36,908** individuals were placed in quarantine facilities and of them **32,518** (88.1%) have already been released. Over the same period, total of **85,325** individuals were isolated in designated health facilities and of them **73,280** (85.9%) have been released.

The map below is showing incoming flights to IHR designated Airport at Dhaka, 27 April – 25 October 2020, Bangladesh

5. Case Management and Infection Prevention & Control

According to DGHS, as of 26 October 2020, there are **11,730** general beds in the country of which **30.0%** (3,519) in Dhaka city and **564** ICU of which **55.7%** (314) in Dhaka city dedicated for COVID-19 treatment. Presently **20.1%** of the general beds and **49.3%** ICU beds are occupied all over the country.

The table below is showing a temporal comparison of COVID-19 dedicated facilities, week 41 and week 43, 2020, Bangladesh

| | National | | | Dhaka | | |
|-------------------------|---------------|-------------|-------|--------------|-------------|-------|
| | 26 OCT 2020 | 12 OCT 2020 | Trend | 26 OCT 2020 | 12 OCT 2020 | Trend |
| General Beds | 11,730 | 11,687 | ↔ | 3,519 | 3,519 | ↔ |
| Bed Occupancy | 20.1% | 20.9% | ↓ | 49.3% | 49.5% | ↓ |
| ICU | 564 | 564 | ↔ | 314 | 314 | ↔ |
| ICU Occupancy | 46.1% | 45.0% | ↑ | 53.5% | 50.6% | ↑ |
| Oxygen cylinder | 13,095 | 12,987 | ↑ | | | |
