## 1. Global Situation

Globally, as of 07:59pm, 16 November 2020, there have been 54,301,156 confirmed cases of COVID-19, including 1,316,994 deaths, reported by national authorities to WHO. USA, the world's worst hit country, has counted **10,796,432** (155,001) cases with **243,758** (1,216) deaths as reported to WHO; followed by India with **8,845,127** (30,548) cases; while Brazil reported the second highest new cases of **38,307** and second highest cumulative deaths **165,658** (921) followed by India **130,070** (435) at the same cut off time.

*The figure below is showing trend of the weekly number of reported COVID-19 cases and Deaths by WHO region, 01 January – 15 November 2020*

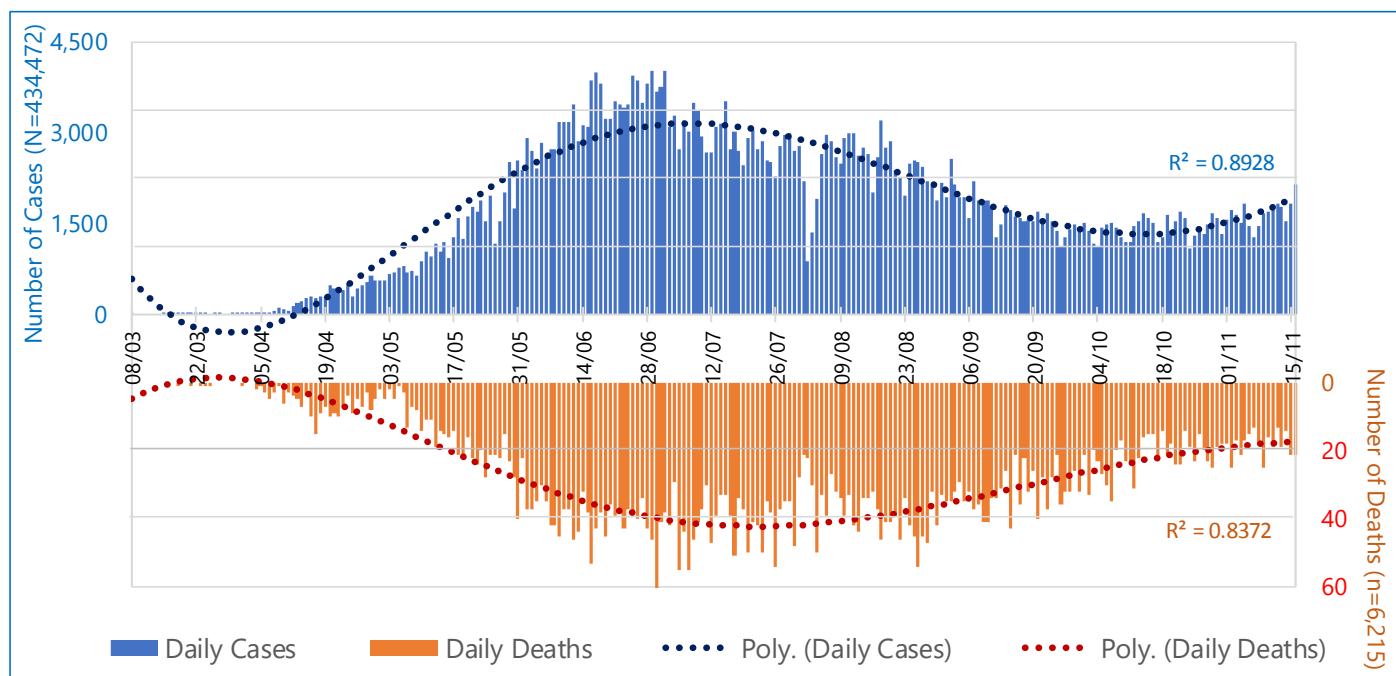

*The figure below shows top ranked countries for total cases of confirmed COVID-19, deaths and new cases, 01 January – 16 November 2020*

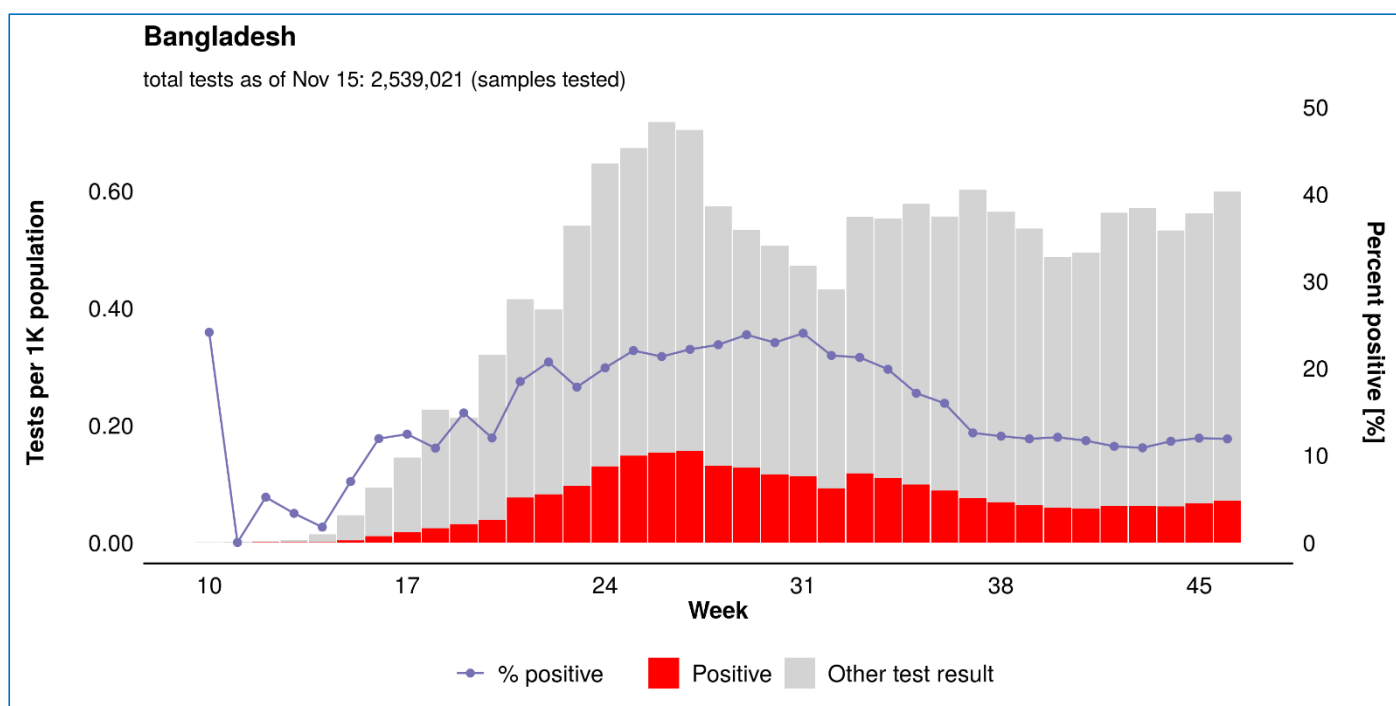

## 2. Bangladesh Situation

Between 8 March and 16 November 2020, according to the DGHS Press Release <<https://corona.gov.bd/press-release>> there were four hundred thirty-four thousand four hundred seventy-two (**434,472**) COVID-19 confirmed by rRT-PCR, including six thousand two hundred fifteen (**6,215**) related deaths (**CFR 1.43%**). Bangladesh is the top 24<sup>th</sup> country in the world and accounts for **0.8%** of the COVID-19 disease burden in the world.

*The figure below is showing the trend of COVID-19 cases and deaths, 08 March – 16 November 2020, Bangladesh*

*The figure below is showing the weekly test status and positivity of COVID-19, 08 March – 15 November 2020, Bangladesh*

In the epidemiological week 46, number of new cases in Bangladesh is **12,095**; case per 100,000 population per week is **7.1**. New death is **127**; death per 100,000 per week in **0.07**. Weekly new tests is **98,592**; tests per million per week is **57.9**; weekly test positivity is **12.3**.

### 3. Surveillance & Laboratory

In the reported week (epidemiological week 46), in comparison to the previous epidemiological week, the number of new weekly COVID-19 cases **increased** by **10.1%** (**12,095** in week 46 and **10,986** in the previous week) while the number of COVID-19 new weekly deaths **increased** by **0.8%** (**127** and **126** respectively); Case Fatality Ratio (CFR) **decreased** from **1.44** last week to **1.43** in the current week.

As of 16 November 2020, among the reported cases **26.1%** cases were confirmed in people between 31 and 40 years old, **19.3%** - in the age group of 21 to 30, **18.8%** - 41 to 50 years and **15.6%** in the age group between 51 and 60 years old. The highest death rate (**31.5%**) was reported in the age group of 61 to 70 years old, **29.0%** in the older age group of 71 and above and **22.5%** in the age group between 51 and 60 years. Male represented **72%** and **77%** of the of total reported confirmed COVID-19 cases and deaths respectively.

**The figure below is showing Age-Sex distribution of COVID-19 case & deaths, 08 March – 16 November 2020, Bangladesh**

**The table below is showing divisional distribution of COVID-19 case and death, 08 March – 16 November 2020, Bangladesh**

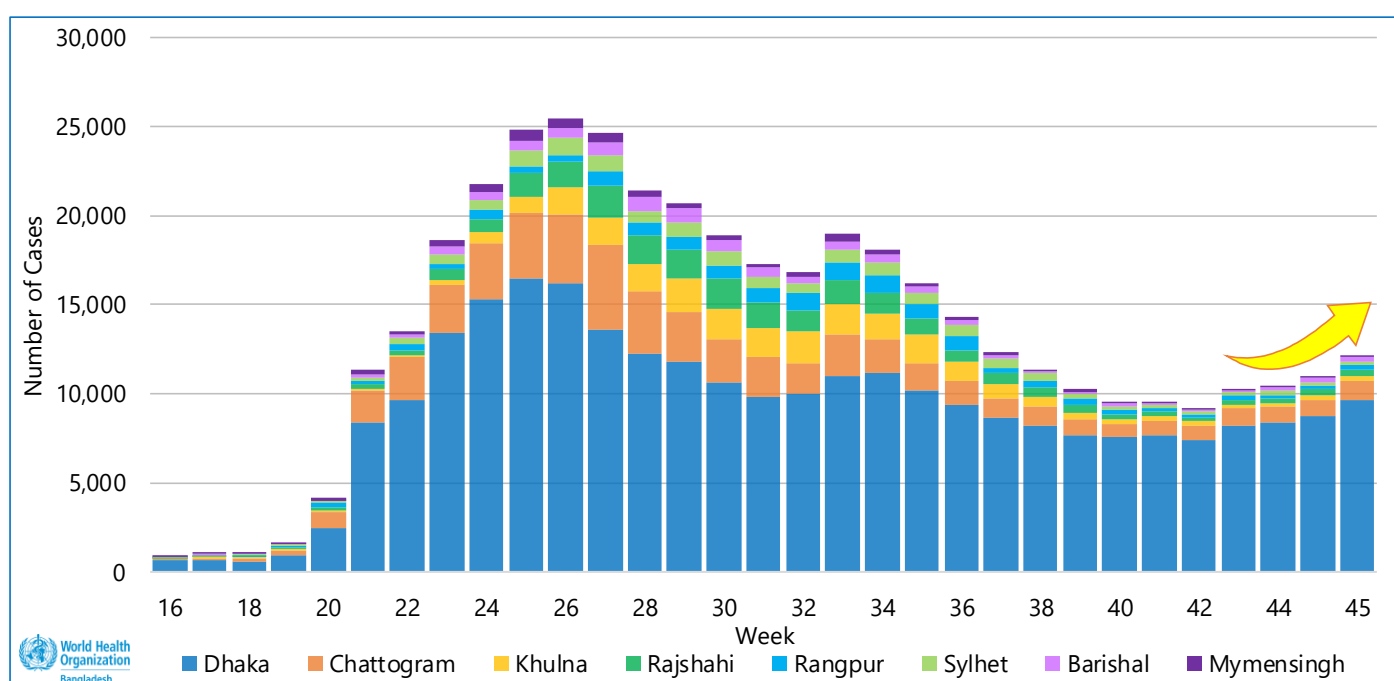

Division	Cumulative			Week 46		
	Cases	Death	CFR (%)	Cases	Death	CFR (%)
Dhaka	292,889	3,257	1.11	9,622	76	0.79
Chattogram	53,119	1,228	2.31	1,129	18	1.59
Khulna	23,270	480	2.06	350	6	1.71
Rajshahi	21,727	373	1.72	258	8	3.10
Sylhet	13,616	258	1.89	224	4	1.79
Rangpur	13,502	280	2.07	222	5	2.25
Barishal	9,434	210	2.23	222	6	2.70
Mymensingh	6,915	129	1.87	68	4	5.88
<b>National</b>	<b>434,472</b>	<b>6,215</b>	<b>1.43</b>	<b>12,095</b>	<b>127</b>	<b>1.05</b>

As of 16 November 2020, **67.4%** of reported cases were from **Dhaka** division, **12.2%** from **Chattogram**, **Khulna – 5.4%**, **Rajshahi – 5.0%**, **Sylhet** and **Rangpur – 3.1%**, **Barishal – 2.2%** and the lowest **1.6%** from **Mymensingh** division. While, **52.4%** of the reported death were from **Dhaka** division, **19.8%** from **Chattogram**, **Khulna – 7.7%**, **Rajshahi – 6.0%**, **Rangpur – 4.5%**, **Sylhet – 4.2%**, **Barishal – 3.4%** and the lowest **2.1%** from **Mymensingh** division.

The highest number of weekly cases (**25,481**) reported in epi-week **26** (22 – 28 JUN 2020) while the highest weekly death (**314**) recorded in the following week **27** (29 JUN – 05 JUL 2020). During the last week cases increased in Chattogram by **19.7%**, Rangpur – **17.3%**, Rajshahi – **11.1%**, Dhaka – **10.2%** and Sylhet by **6.7%**; while cases reduced in Mymensingh by **26.1%**, Khulna – **8.3%** and Barishal division by **3.5%** than the previous week.

As on 16 November 2020, overall attack rate (**AR**) in Bangladesh is **2,551** per 1 million and **100% (64/64)** of districts with the estimated total population of 170,306,468 have reported confirmed COVID-19 cases. In the reported week (week 46), COVID-19 weekly average **AR** (2,539) increased by **2.9%** from the previous week.

**The figure below is showing the trend of COVID-19 Cases by division, 04 May – 15 November 2020, Bangladesh**

#### 4. Points of Entry & Quarantine

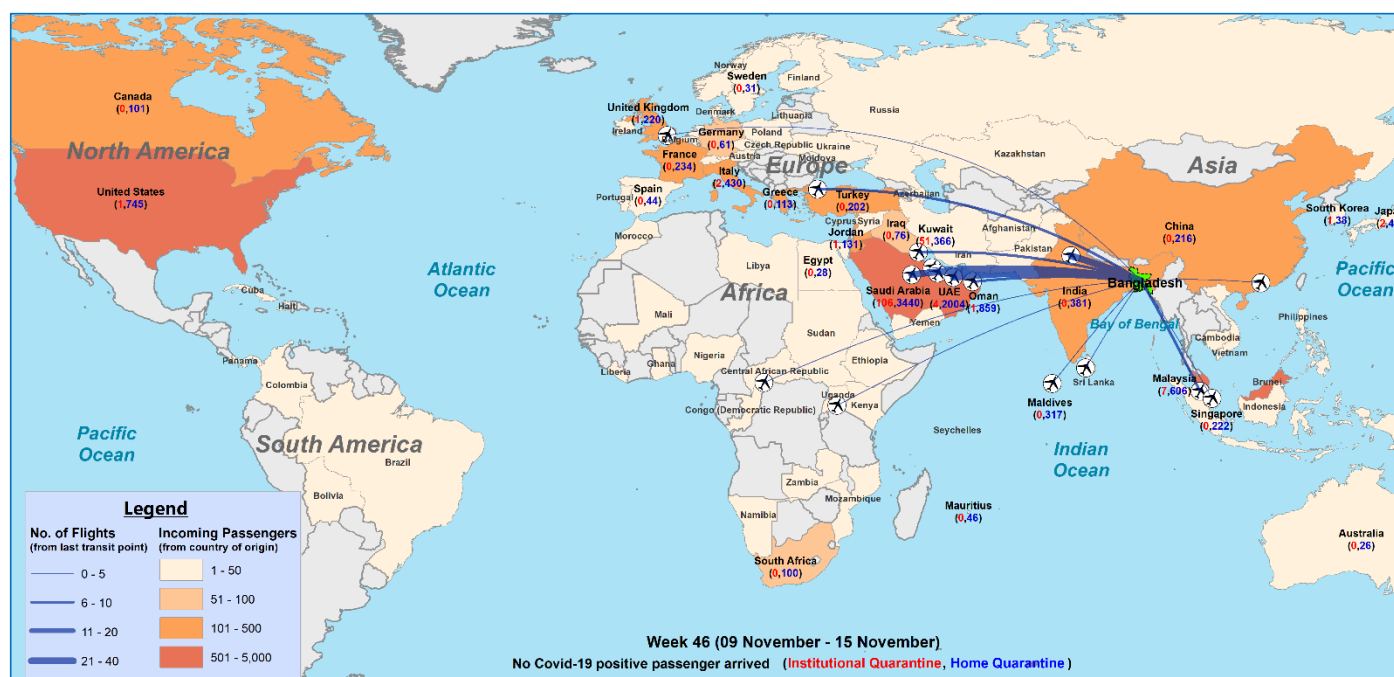

In the reported week (week 46), the number of international flights has increased by **0.7%**, in comparison to the previous week (**144** and **143** respectively) leading to increase in the number of incoming passengers by **5.6%** (**22,896** and **21,683** respectively). In the reported week **335** individuals were sent to Institutional Quarantine after passenger screening at the Hazrat Shahjalal International Airport (HSIA).

**The figure below is showing the incoming flow of flights and passengers captured through PoE Surveillance, 26 April – 15 November 2020, Bangladesh**

According to DGHS, as of 19 November 2020, the current institutional quarantine capacity in the country is represented by **629** centres across the 64 districts, which can receive **31,991** persons. A total of **39,345** individuals were placed in quarantine facilities and of them **34,638** (88.0%) have already been released. Over the same period, total of **88,564** individuals were isolated in designated health facilities and of them **76,394** (86.3%) have been released.

**The map below is showing geographical distribution of incoming flights and travellers captured through PoE Surveillance, week 46, 2020, Bangladesh**

## 5. Case Management and Infection Prevention & Control

According to DGHS, as of 16 November 2020, there are **11,453** general beds in the country of which **30.3%** (3,519) in Dhaka city and **564** ICU of which **55.7%** (314) in Dhaka city dedicated for COVID-19 treatment. Presently **23.1%** of the general beds and **50.6%** ICU beds are occupied all over the country.

**The table below is showing a temporal comparison of COVID-19 dedicated facilities, week 44 and week 46, 2020, Bangladesh**

	National			Dhaka
