1. Global Situation

Globally, as of 7:48pm, 6 December 2020, there have been 65,870,030 confirmed cases of COVID-19, including 1,523,583 deaths, reported to WHO by the national authorities. USA, the world's worst hit country, has counted **14,191,298** (213,127) cases with **276,503** (2,426) deaths as reported to WHO; followed by India with **9,644,222** (36,011) cases; while Brazil reported the third highest cases of **6,533,968** (46,884) and second highest deaths **175,964** (694) followed by India **140,182** (482) at the same cut off time.

The figure below is showing trend of the weekly number of reported COVID-19 cases by WHO region, 01 January – 06 December 2020

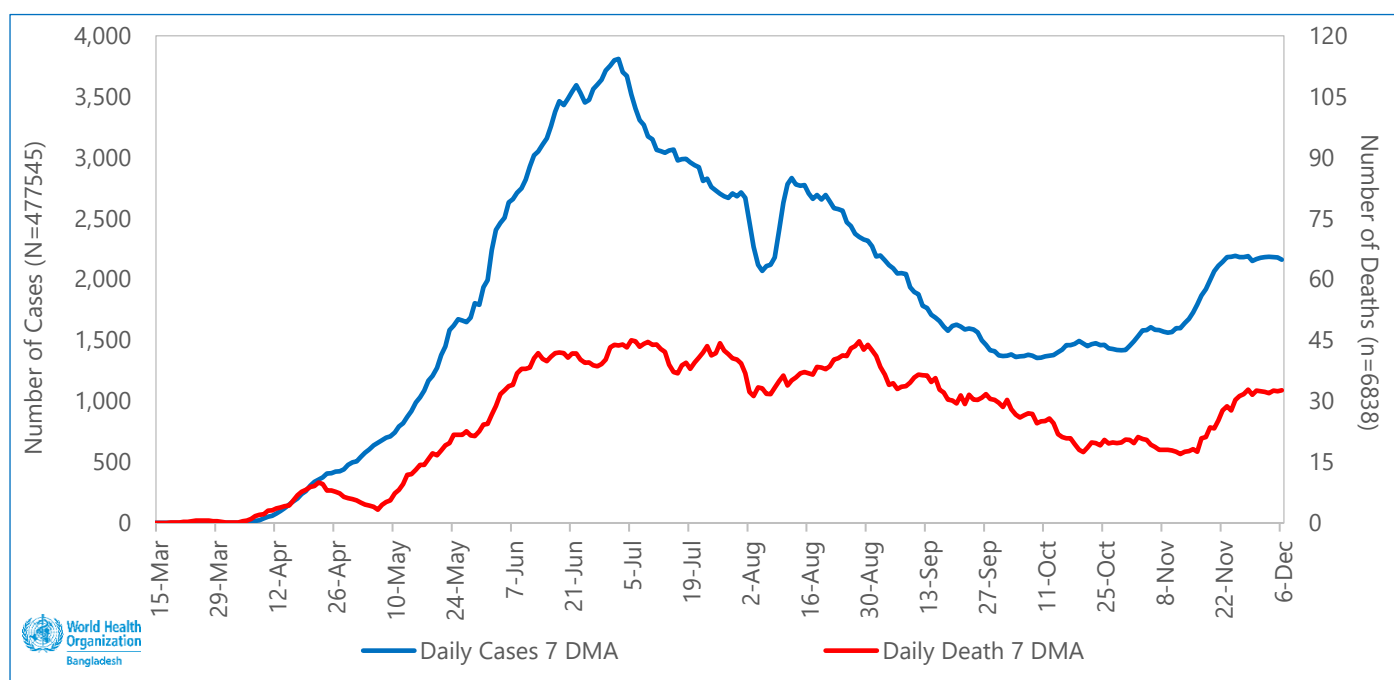

The figure below shows top ranked countries for total cases of confirmed COVID-19, deaths and new cases, 01 January – 06 December 2020

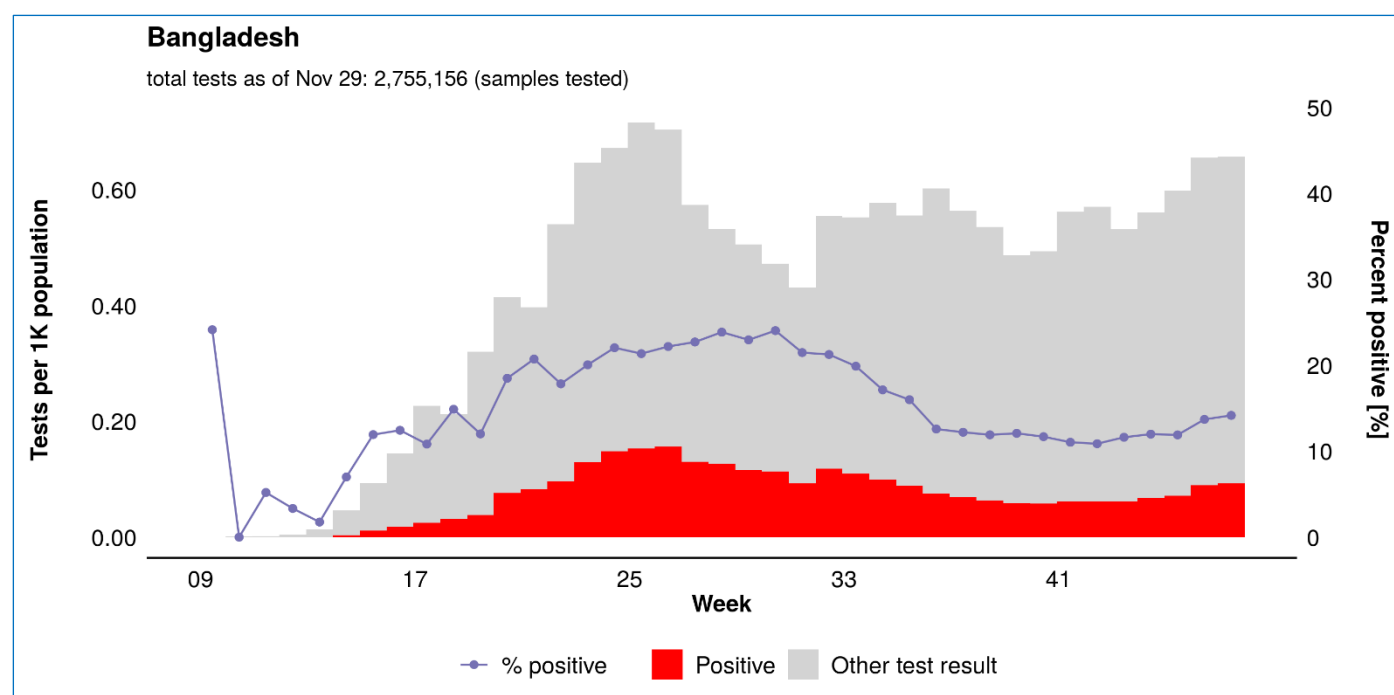

2. Bangladesh Situation

Between 8 March and 06 December 2020, according to the DGHS Press Release <<https://corona.gov.bd/press-release>> there were four hundred seventy-seven thousand five hundred forty-five (**477,545**) COVID-19 confirmed by rRT-PCR, including six thousand six hundred forty-four (**6,838**) related deaths (**CFR 1.43%**). Bangladesh is the top 26th country in the world and accounts for **0.75%** of the COVID-19 disease burden in the world.

The figure below is showing the trend of COVID-19 cases and deaths, 08 March – 06 December 2020, Bangladesh

The figure below is showing the weekly test status and positivity of COVID-19, 08 March – 06 December 2020, Bangladesh

In the epidemiological week 49, number of new cases in Bangladesh is **15,138**; case per 100,000 population per week is **8.9**. New death is **229**; death per 100,000 per week is **0.13**. Weekly new tests is **107,197**; tests per 100,000 per week is **62.9**; weekly test positivity is **14.12**.

3. Surveillance & Laboratory

In the reported week (epidemiological week 49), in comparison to the previous epidemiological week, the number of new weekly COVID-19 cases **increased** by **0.5%** (**15,138** in week 49 and 15,066 in the previous week) while the number of COVID-19 new weekly deaths **increased** by **3.6%** (**229** and 221 respectively); Case Fatality Ratio (CFR) is **static** at **1.43** since last three weeks.

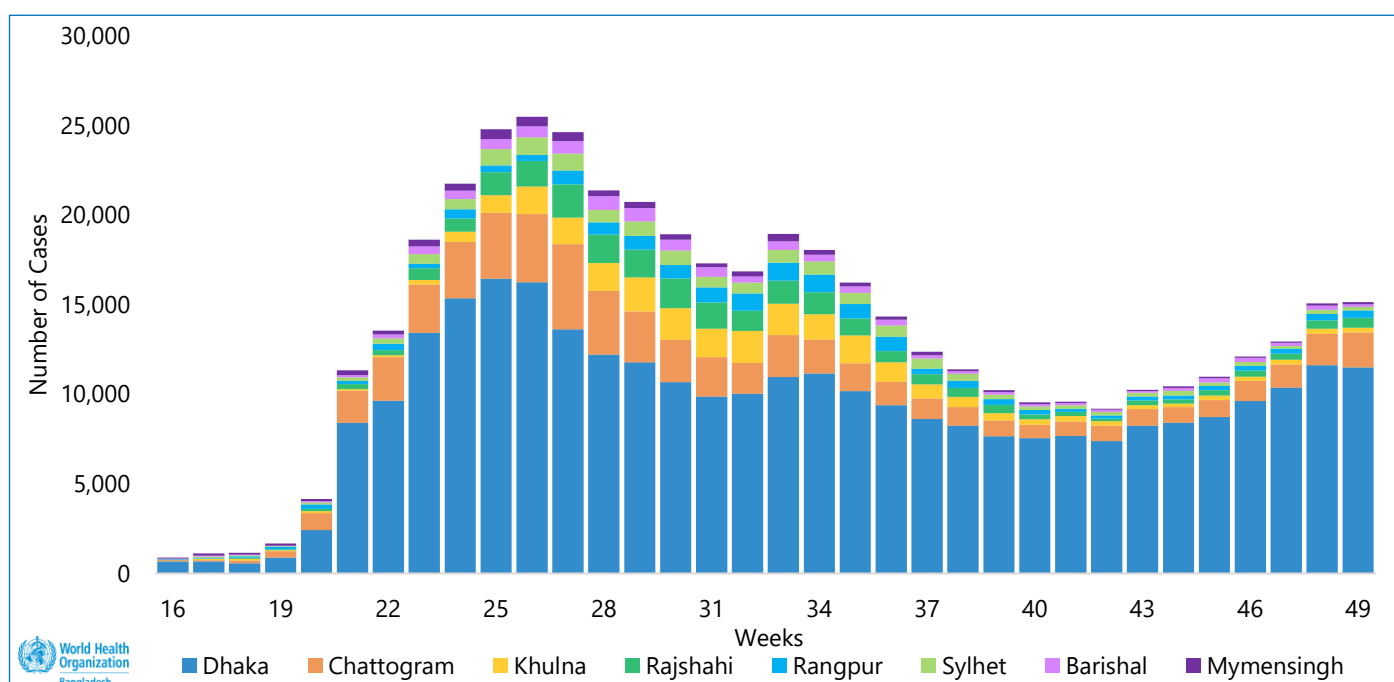

As of 06 December 2020, among the reported cases **26.6%** cases were confirmed in people between 31 and 40 years old, **19.6%** - in the age group of 21 to 30, **19.2%** - 41 to 50 years and **15.9%** in the age group between 51 and 60 years old. The highest death rate (**31.5%**) was reported in the age group of 61 to 70 years old, **30.0%** in the older age group of 71 and above and **22.1%** in the age group between 51 and 60 years. Male represented **72%** and **76%** of the of total reported confirmed COVID-19 cases and deaths respectively.

The table below is showing distribution of COVID-19 case and death, 08 March – 06 December 2020, Bangladesh

Division	Cumulative			Week 49		
	Cases	Death	CFR (%)	Cases	Death	CFR (%)
Dhaka	326,322	3,691	1.13	11,503	155	1.35
Chattogram	58,115	1,285	2.21	1,947	19	0.98
Khulna	24,052	500	2.08	256	6	2.34
Rajshahi	23,114	406	1.76	556	11	1.98
Rangpur	14,549	311	2.14	409	11	2.69
Sylhet	14,182	271	1.91	203	6	2.96
Barishal	9,967	229	2.30	144	7	4.86
Mymensingh	7,244	145	2.00	120	14	11.67
National	477,545	6,838	1.43	15,138	229	1.51

As of 06 December 2020, **68.3%** of reported cases were from **Dhaka** division, **12.2%** from **Chattogram**, **Khulna – 5.0%**, **Rajshahi – 4.8%**, **Sylhet** and **Rangpur – 3.0%**, **Barishal – 2.1%** and the lowest **1.5%** from **Mymensingh** division.

The figures below showing the trend of COVID-19 Cases and Deaths, 04 May – 06 December 2020, Bangladesh

While, **54.0%** of the reported death were from **Dhaka** division, **18.8%** from **Chattogram**, **Khulna – 7.3%**, **Rajshahi – 5.9%**, **Sylhet – 4.5%**, **Rangpur – 4.0%**, **Barishal – 3.3%** and the lowest **2.1%** from **Mymensingh** division.

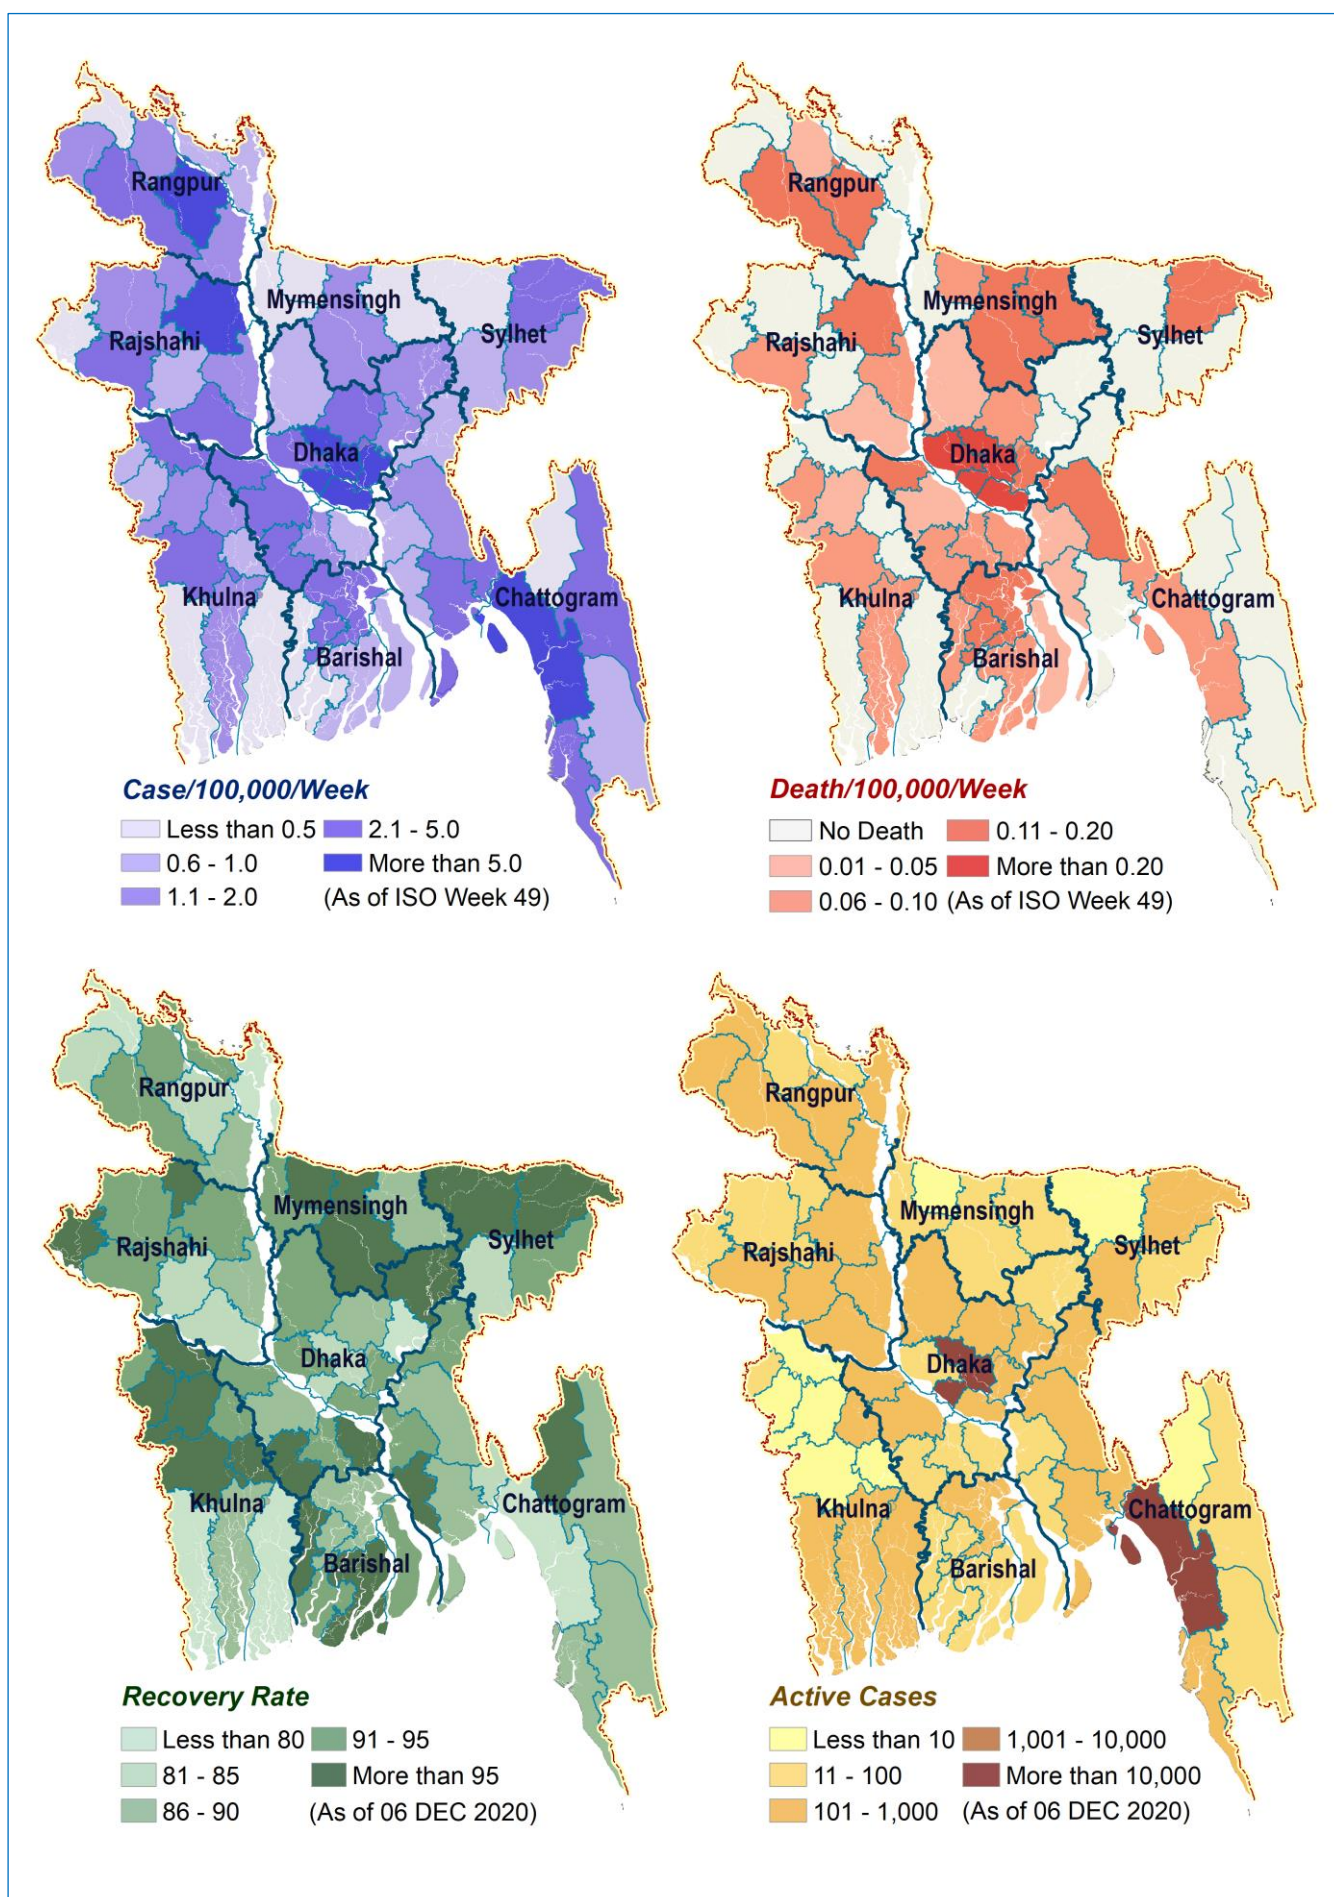

The highest number of weekly cases (**25,481**) reported in epi-week **26** (22 – 28 JUN 2020) while the highest weekly death (**314**) recorded in the following week **27** (29 JUN – 05 JUL 2020). During the last week cases increased in Rajshahi division by **20.1%**, followed by Rangpur – **14.2%** and Chattogram – **11.3%**; while cases reduced in Barishal division by **34.5%** followed by Sylhet – **13.2%**, Khulna – **10.8%** and Mymensingh – **8.4%** than the previous week.

As on 06 December 2020, overall attack rate (**AR**) in Bangladesh is **280** per 100,000 population and **100% (64/64)** of districts with the estimated total population of 170,306,468 have reported confirmed COVID-19 cases. In the reported week (week 49), COVID-19 weekly average **AR** (280/100,000) increased by **3.3%** from the previous week.

Out of the total **477,545** COVID-19 cases registered as of 06 December 2020, **82.9%** (395,960) **recovered**, **1.43%** (6,838) **died** and **15.65%** (74,747) are **active cases**. In the epidemiological week 49, weekly average number of COVID-19 **active cases** decreased by **2.5%**, in comparison to the previous week (**76,445** and 78,373 respectively); during the same time, weekly **recovery** has increased by **13.0%** (**17,788** and 15,744 respectively).

The figure below is showing trend of COVID-19 cases by Outcome, 15 March – 06 December 2020, Bangladesh

As of 06 December 2020, according to the DGHS Press Release **2,863,169** COVID-19 tests were conducted in Bangladesh with the overall positivity rate of **16.68%** (**12.6%** in last 24 hours) by **127** laboratories; **69** laboratories (**54.3%**) in Dhaka and **58** laboratories (**45.7%**) from outside Dhaka. Eight laboratories joined in the network of COVID-19 testing laboratories since the last update of them seven are using GeneXpert technology. Total **62.1%** (**1,772,952/2,853,366**) of all samples were tested by the laboratories in Dhaka. As of 30 November 2020, test per case is **6.0** which indicates the number of tests required to identify 1 case.

The graph below is showing cumulative number of Samples tested and Positivity rate, 08 March – 06 December 2020, Bangladesh

4. Points of Entry & Quarantine

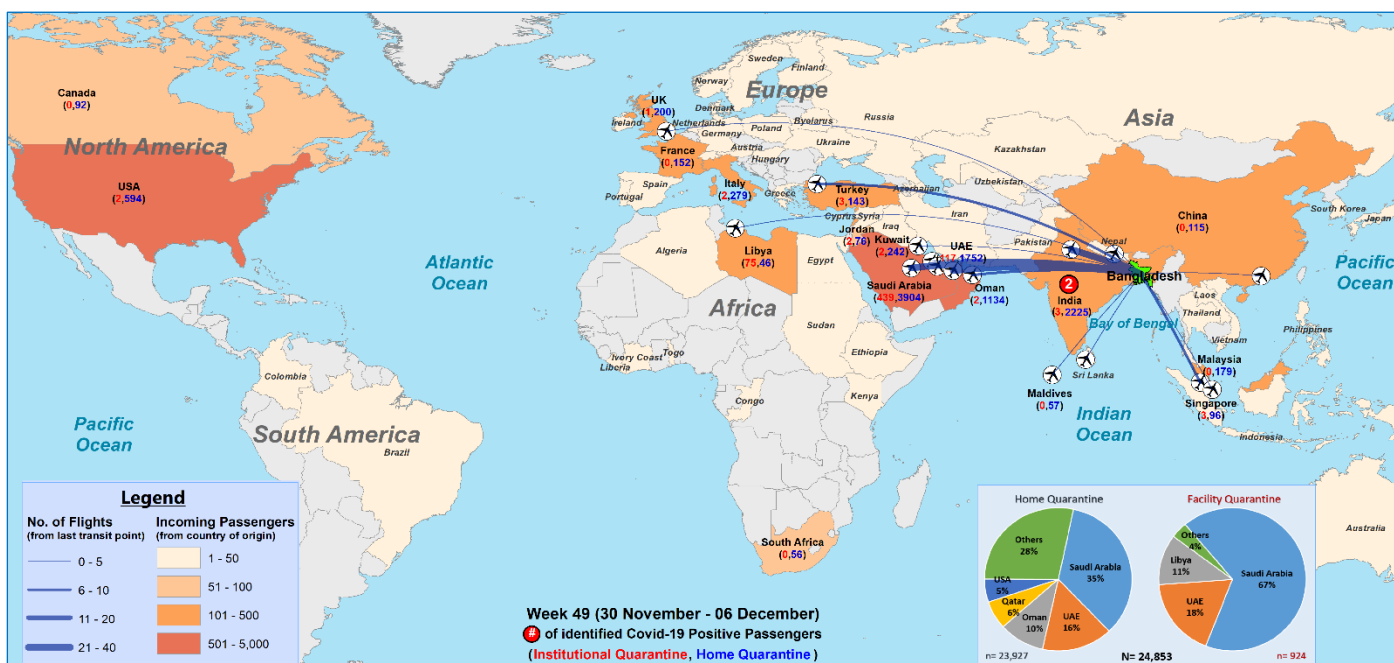

In the reported week (week 49), the number of international flights has increased by **5.2%**, in comparison to the previous week (**161** and 153 respectively) leading to increase in the number of incoming passengers by **3.4%** (**26,636** and 25,765 respectively). In the reported week **1,203** individuals were sent to Institutional Quarantine after passenger screening at the Hazrat Shahjalal International Airport (HSIA).

The figure below is showing the incoming flow of flights and passengers captured through PoE Surveillance, 26 April – 06 December 2020, Bangladesh

According to DGHS, as of 19 November 2020, the current institutional quarantine capacity in the country is represented by **629** centres across the 64 districts, which can receive **31,991** persons. A total of **42,674** individuals were placed in quarantine facilities and of them **37,322** (87.5%) have already been released. Over the same period, total of **92,454** individuals were isolated in designated health facilities and of them **79,425** (85.9%) have been released.

The map below is showing geographical distribution of incoming flights and travellers captured through PoE Surveillance, week 49 (30 NOV – 06 DEC), 2020, Bangladesh

The table below is showing distribution of incoming travellers in last 14 days (N=33,663) sent to Home Quarantine as captured through PoE Surveillance, 23 NOV – 06 DEC 2020, Bangladesh
