1. Global Situation

Globally, as of 8:43 PM CET, 24 January 2021 there have been 97,464,094 confirmed cases of COVID-19, including 2,112,689 deaths received by WHO from national authorities. USA, the world's worst hit country, has counted **24,604,325** (190,994) cases with **410,667** (3,885) deaths as reported to WHO; followed by India with **10,654,533** (14,849) cases; while Brazil reported the third highest cases of **8,753,920** (56,552) and second highest deaths **215,243** (1,096) followed by India **153,339** (155) at the same cut off time.

The figure below is showing weekly Case and Death of COVID-19, 01 January 2020 – 24 January 2021

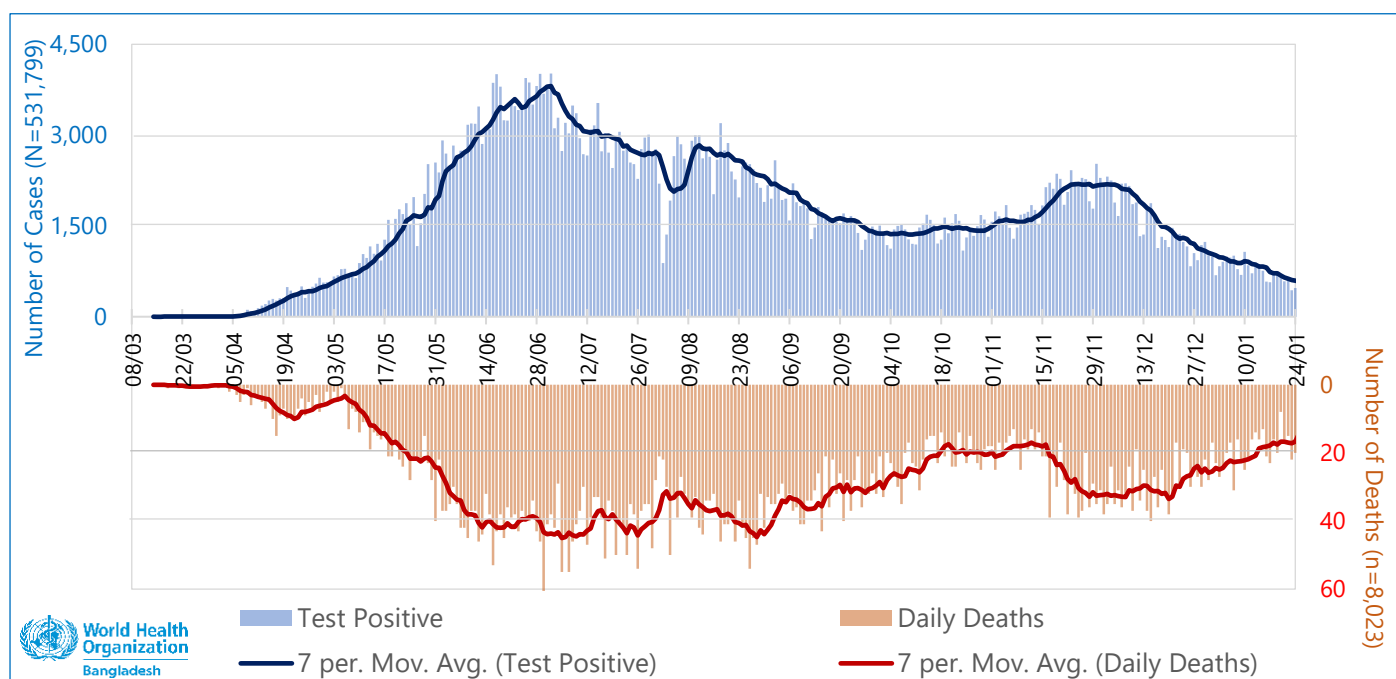

The figure below shows top ranked countries for total confirmed Cases, Deaths and New cases of COVID-19, 01 January 2020 – 24 January 2021

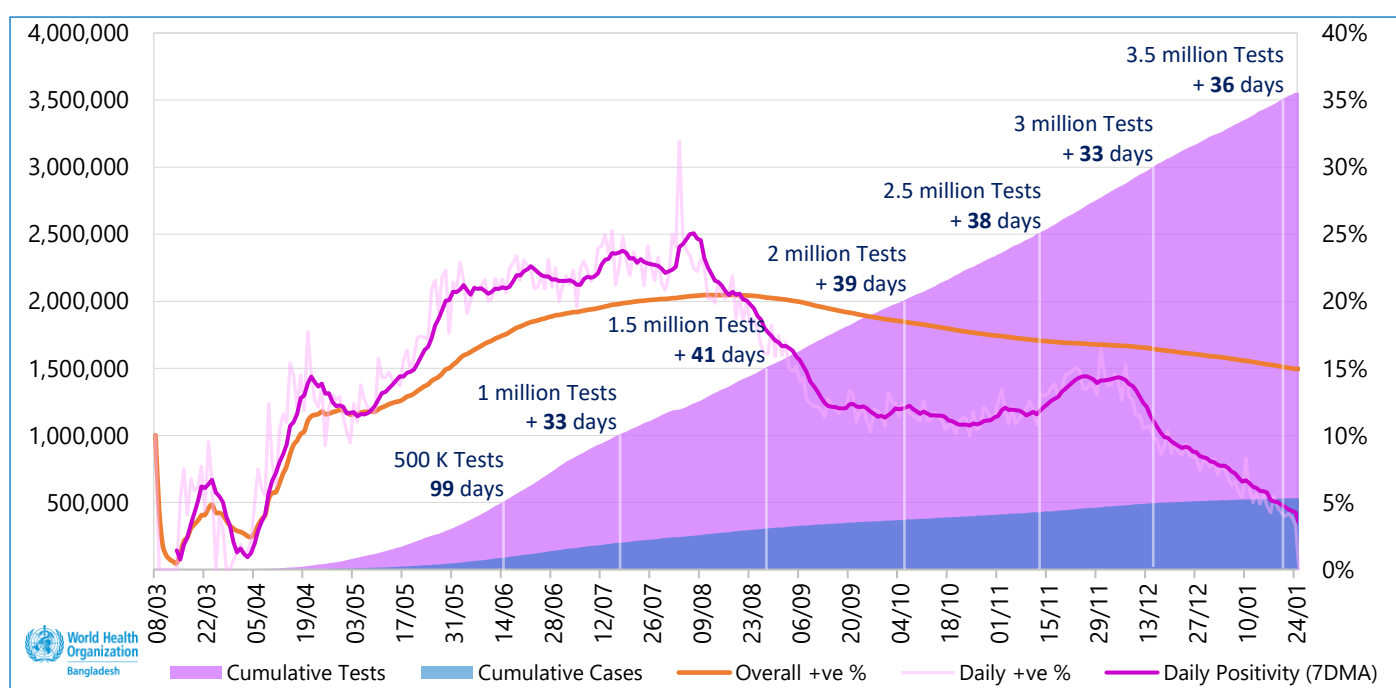

2. Bangladesh Situation

Between 8 March 2020 and 24 January 2021, according to the DGHS Press Release <<https://corona.gov.bd/press-release>> there were five hundred thirty-one thousand seven hundred ninety-nine (**531,799**) COVID-19 confirmed by rRT-PCR, GeneXpert and Rapid Antigen tests including eight thousand twenty-three (**8,023**) related deaths (**CFR 1.51%**). Bangladesh is the top 30th country in the world and accounts for **0.55%** of the COVID-19 disease burden of the world.

The figures below showing trend of COVID-19 Cases and Deaths, 08 March 2020 – 24 January 2021, Bangladesh

The figures below showing COVID-19 Test and Positivity, 08 March 2020 – 24 January 2021, Bangladesh

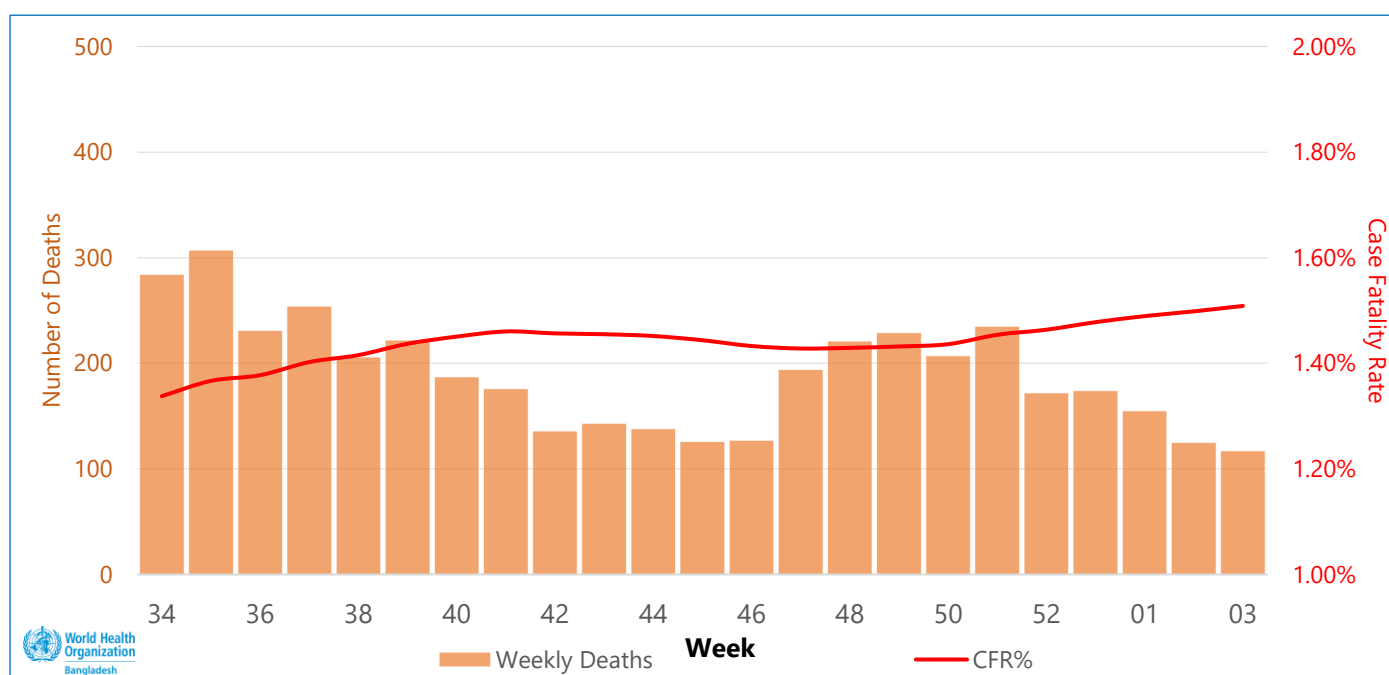

In the epidemiological week 03, 2021, number of new cases in Bangladesh is **4,167**; case per 100,000 population per week is **2.4**. New death is **117**; death per 100,000 per week is **0.07**. Weekly new test is **98,105** (daily average: **14,015**); tests per 100,000 per week is **57.6**; weekly test positivity rate is **4.25%**.

3. Surveillance & Laboratory

In the reported week, in comparison to the previous epidemiological week, the number of new weekly COVID-19 case **decreased** by **19.5%** (4,167 in week 03 and 5,179 in week 02, 2021) and the number of COVID-19 new weekly death also **decreased** by **6.4%** (117 and 125 respectively); overall Case Fatality Ratio (CFR) **increase** to **1.51** which was 1.50 last week.

The figure below is showing COVID-19 weekly death and CFR, 17 August 2020 – 24 January 2021, Bangladesh

As of 24 January 2021, among the reported cases **25.9%** cases were confirmed in people between 30 and 39 years old, **19.2%** in the age group of 40 to 49, **17.7%** in 20 to 29 years and **16.3%** in the age group between 50 and 59 years old, **12.6%** in the age group 60 and above and **8.4%** in the age group below 20 years. The highest death rate (**32.1%**) in the older age group of 70 and above, **31.8%** was reported in the age group of 60 to 69 years, **21.0%** in 50 to 59 years, and **15.1%** in the age group of below 50 years. Male represents **71%** and **76%** of the total reported confirmed COVID-19 cases and deaths respectively.

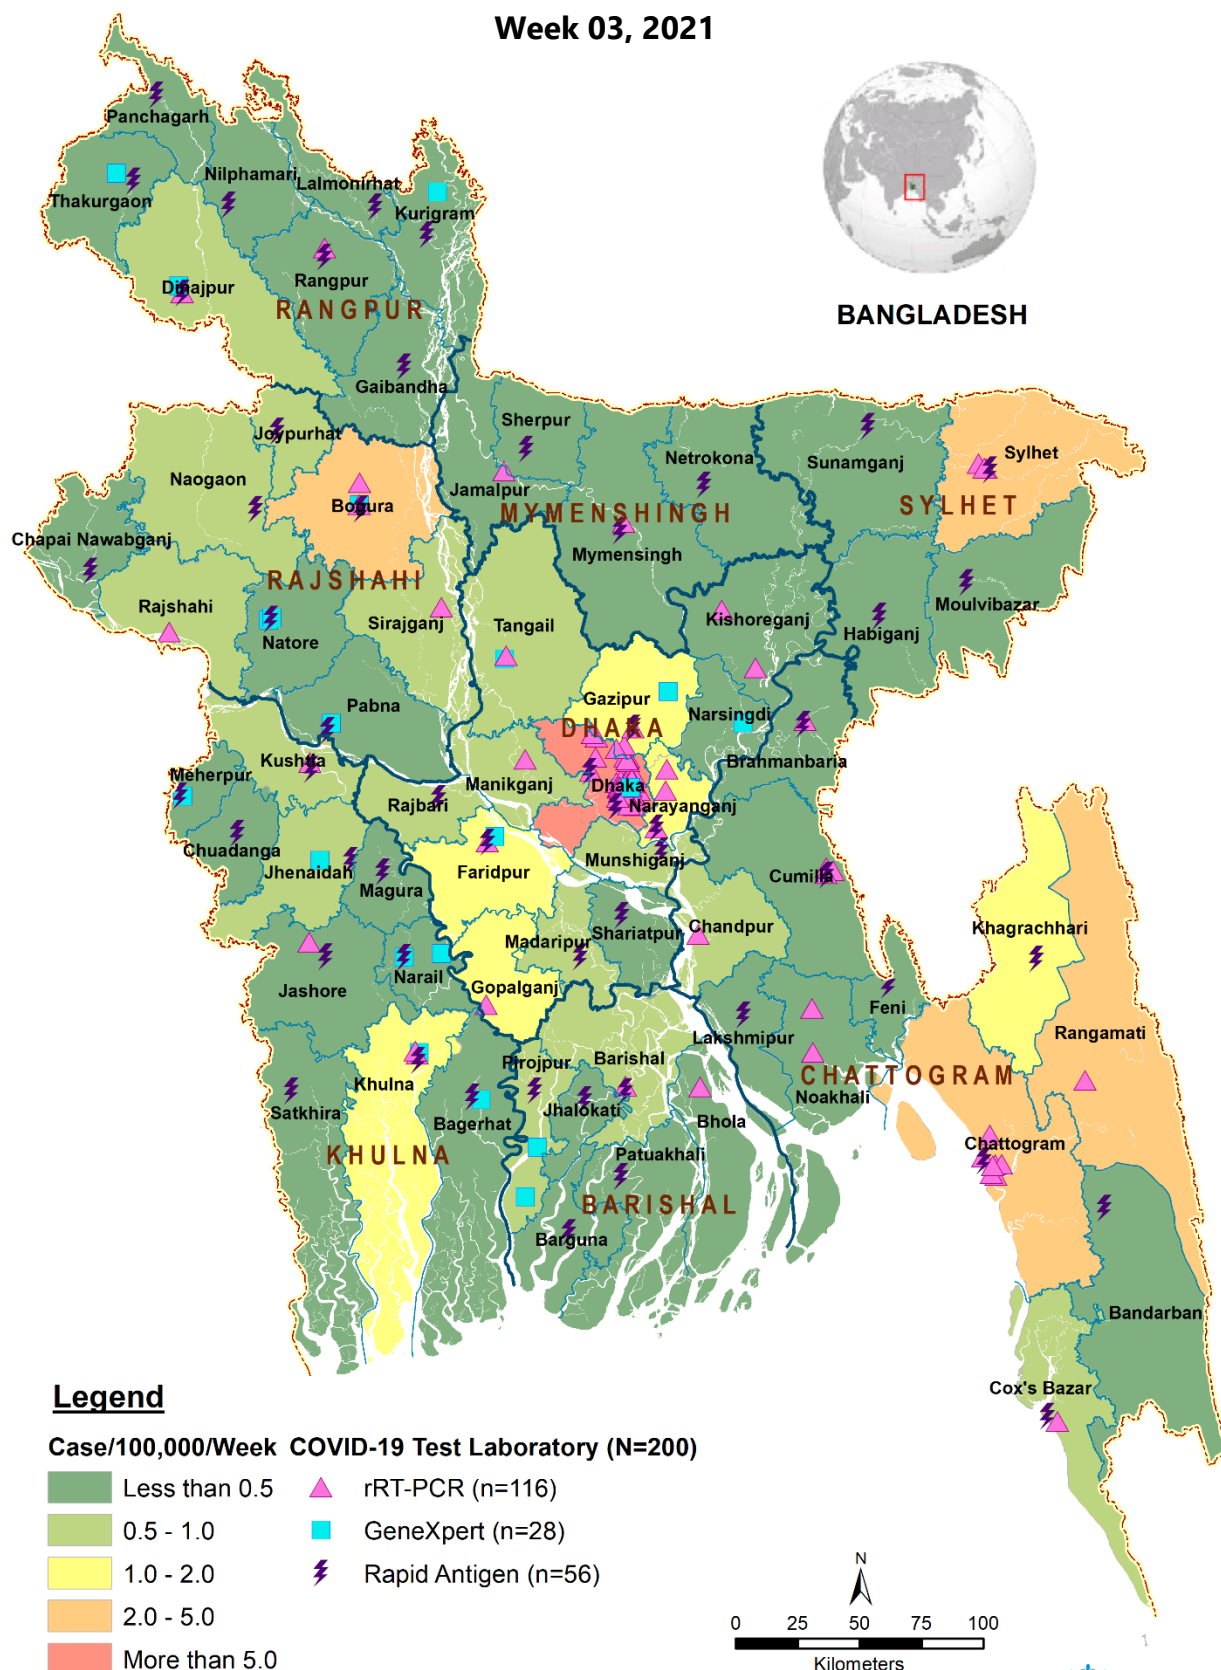

The table below is showing distribution of COVID-19 case and death, 08 March 2020 – 24 January 2021, Bangladesh

Division	Cumulative			Week 03, 2021		
	Cases	Death	CFR (%)	Cases	Death	CFR (%)
Dhaka	366,100	4,460	1.22	3,022	80	2.65
Chattogram	66,036	1,482	2.24	586	23	3.92

Distribution of COVID-19 Cases

Week 03, 2021

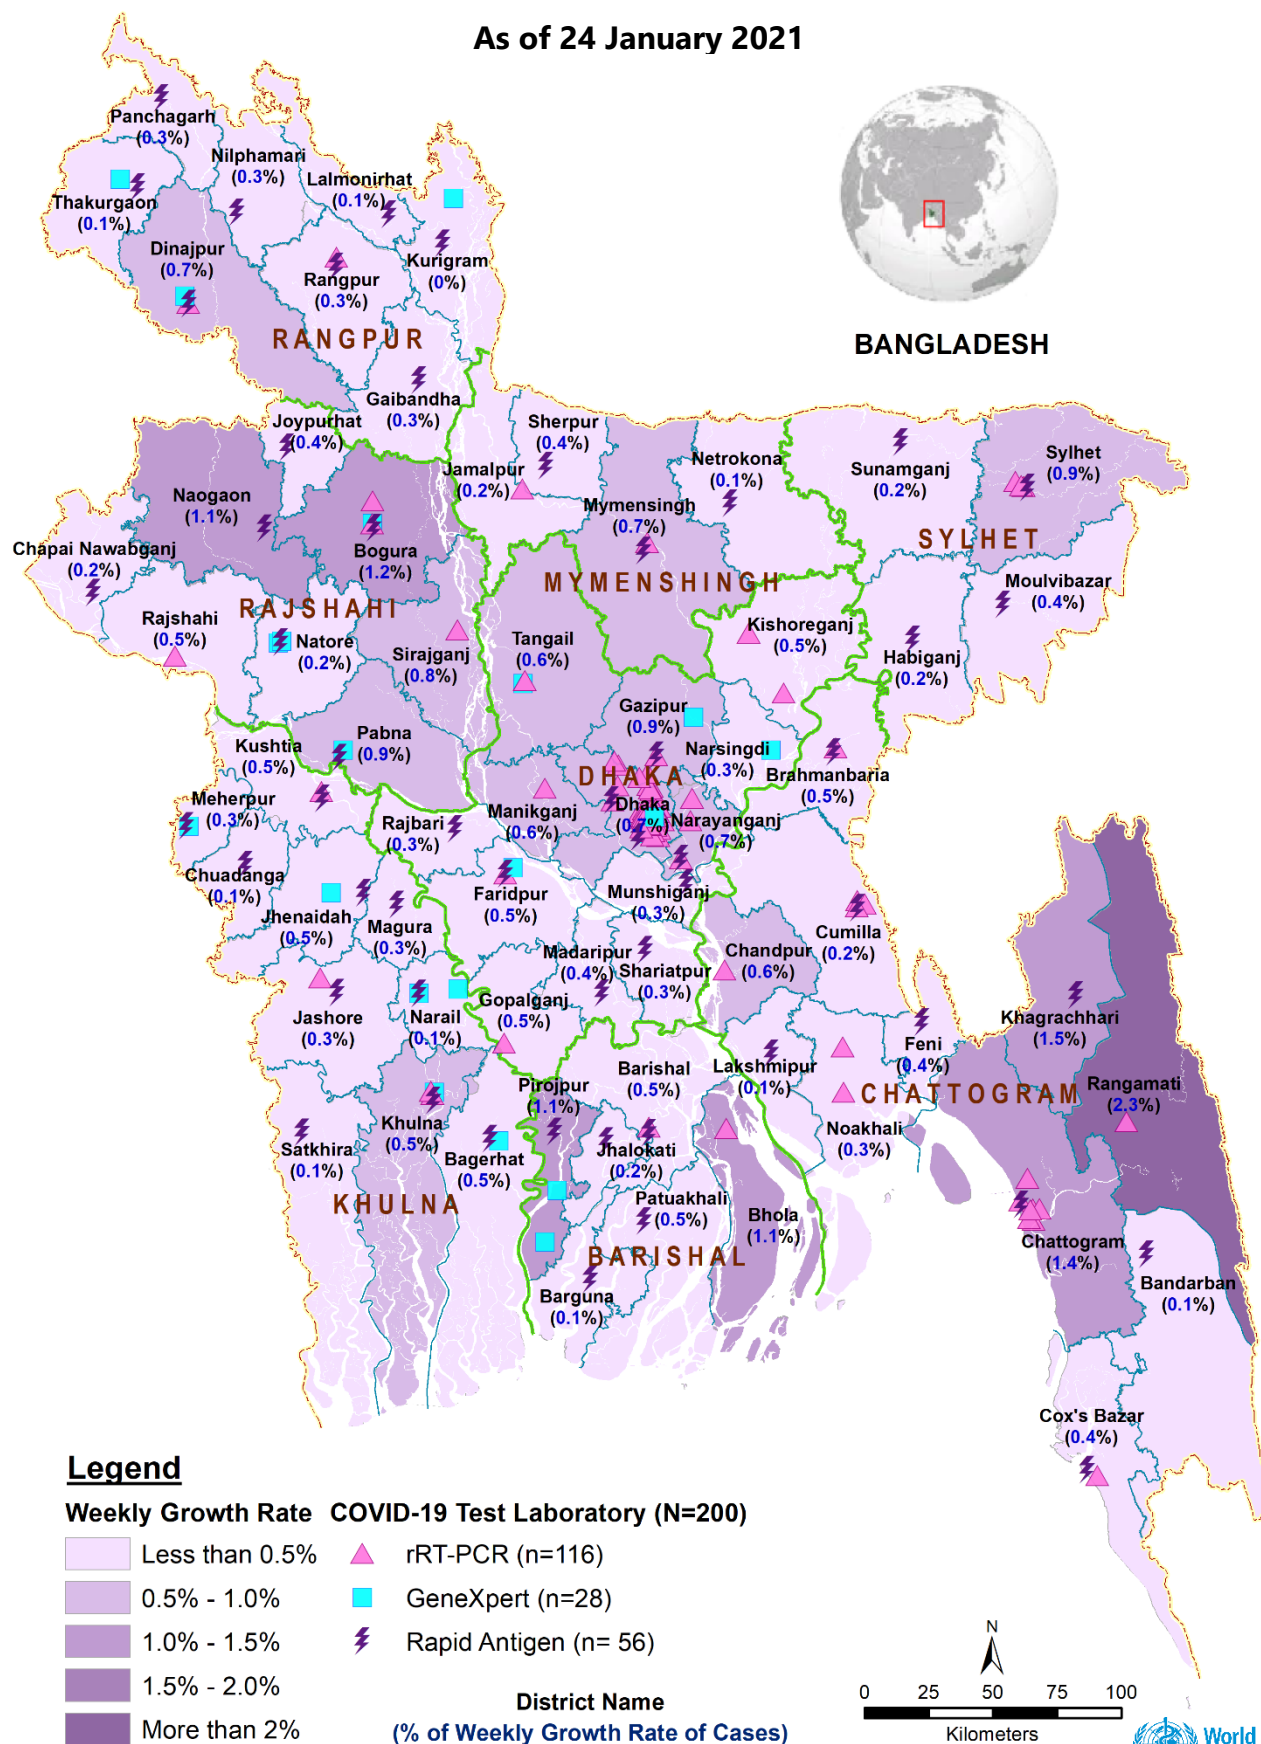

Data Source: HEOC & Control Room, DGHS

The map below is showing growth of COVID-19 cases, Week 02 to week 03, 2021, Bangladesh

COVID-19 Weekly Growth Rate

As of 24 January 2021

As of 24 January 2021, **68.8%** of reported cases were from **Dhaka** division (**58.1%** at Dhaka city), **12.4%** from **Chattogram**, **Khulna – 4.8%**, **Rajshahi – 4.7%**, **Rangpur – 3.0%**, **Sylhet – 2.9%**, **Barishal – 2.0%** and the lowest **1.5%** from **Mymensingh** division. While, **55.6%** of the reported death were from **Dhaka** division (**29.8%** at Dhaka city), **18.5%** from **Chattogram**, **Khulna – 6.8%**, **Rajshahi – 5.6%**, **Rangpur – 4.4%**, **Sylhet – 3.8%**, **Barishal – 3.0%** and the lowest **2.3%** from **Mymensingh** division.

The highest number of weekly cases (**25,481**) reported in epi-week **26** (22 – 28 JUN 2020) while the highest weekly death (**314**) recorded in the following week **27** (29 JUN – 05 JUL 2020). Weekly cases increased in Rajshahi division by **19.3%**; did not change in Barishal division; while decreased in Sylhet division by **52.1%** followed by Khulna – **35.8%**, Mymensingh – **28.0%**, Chattogram – **25.4%**, Dhaka – **19.1%** and Rangpur – **3.8%** than the last week. In the reported week (week 03, 2021), COVID-19 daily average cases (**595**) decreased by **19.6%** from the previous week.

The table below is showing top 10 districts of COVID-19 Cases, 07 December 2020 – 24 January 2021, Bangladesh

District/City	Cases per Week							Case per 100,000 per Week						
	50	51	52	53	1	2	3	50	51	52	53	1	2	3
Dhaka City	8,852	6,812	5,628	4,449	4,332	3,348	2,716	106.5	81.9	67.7	53.5	52.1	40.3	32.7
Chattogram	1,224	1,133	958	903	833	616	448	13.6	12.6	10.6	10.0	9.3	6.8	5.0
Bogura	167	233	80	93	50	40	118	4.2	5.8	2.0	2.3	1.2	1.0	2.9
Sylhet	179	134	152	86	80	82	84	4.4	3.3	3.7	2.1	2.0	2.0	2.1
Gazipur	149	80	63	75	35	57	66	3.7	2.0	1.6	1.9	0.9	1.4	1.6
Narayanganj	205	127	86	73	74	80	63	5.9	3.6	2.5	2.1	2.1	2.3	1.8
Faridpur	94	99	101	89	44	66	41	4.2	4.4	4.5	3.9	1.9	2.9	1.8
Khulna	97	70	74	36	53	41	36	3.5	2.6	2.7	1.3	1.9	1.5	1.3
Dinajpur	137	120	89	48	55	56	33	3.9	3.4	2.5	1.4	1.6	1.6	0.9
Mymensingh	65	66	69	33	29	26	30	1.1	1.1	1.1	0.5	0.5	0.4	0.5

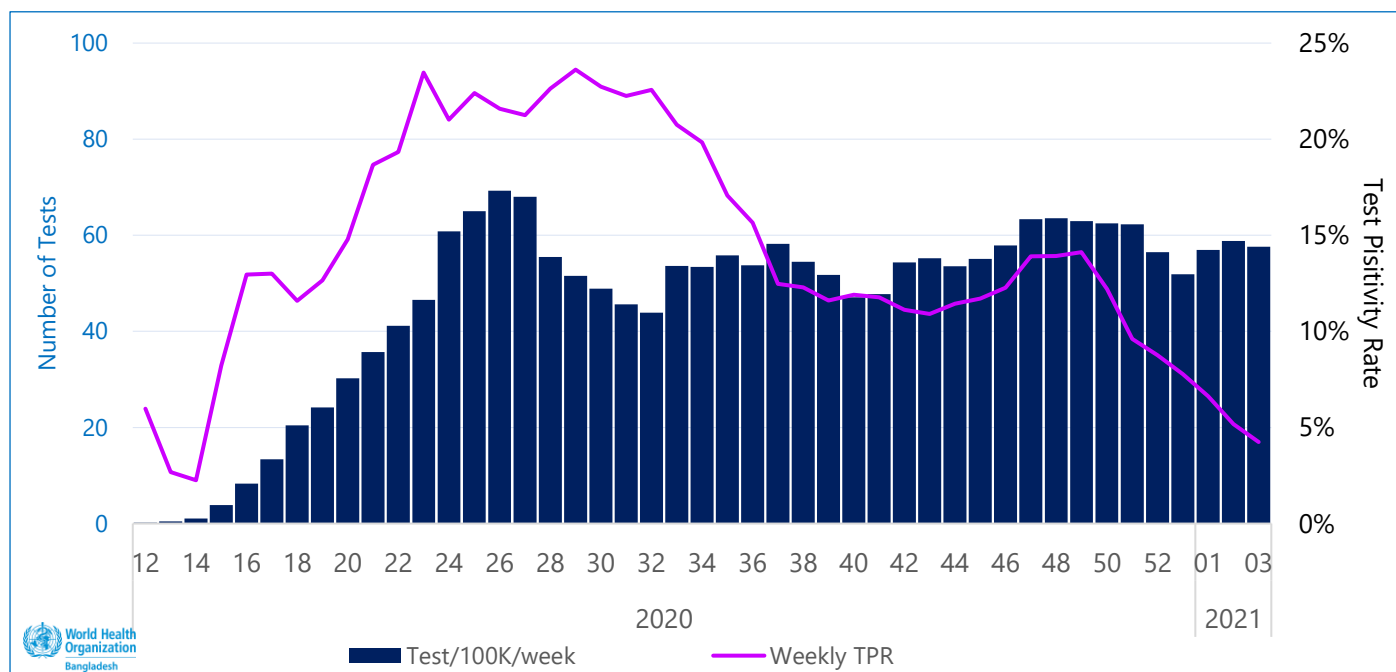

Out of the total **527,632** COVID-19 cases registered as of 24 January 2021, **89.5%** (472,437) **recovered**, **1.50%** (7,906) **died** and **8.96%** (47,289) were **active cases**. In the epidemiological week 02, weekly average number of COVID-19 **active cases** decreased by **0.5%**, in comparison to the previous week (**47,505** and 47,734 respectively); during the same time, weekly **recovery** has decreased by **9.1%** (**5,636** and 6,203 respectively).

The figure below is showing status of confirmed COVID-19 cases, 08 MAR 2020 – 24 JAN 2021, Bangladesh.

As of 24 January 2021, according to the DGHS Press Release **3,555,558** COVID-19 tests were conducted in Bangladesh with the overall positivity rate of **14.96%** (**3.34%** in last 24 hours) by **200** laboratories. One (1) RT-PCR laboratory in Dhaka city (Victoria Healthcare Ltd) has been added to the network of COVID-19 testing laboratories. As of 24 January 2021, test per case is **6.69** which indicates the number of tests required to identify 1 case.

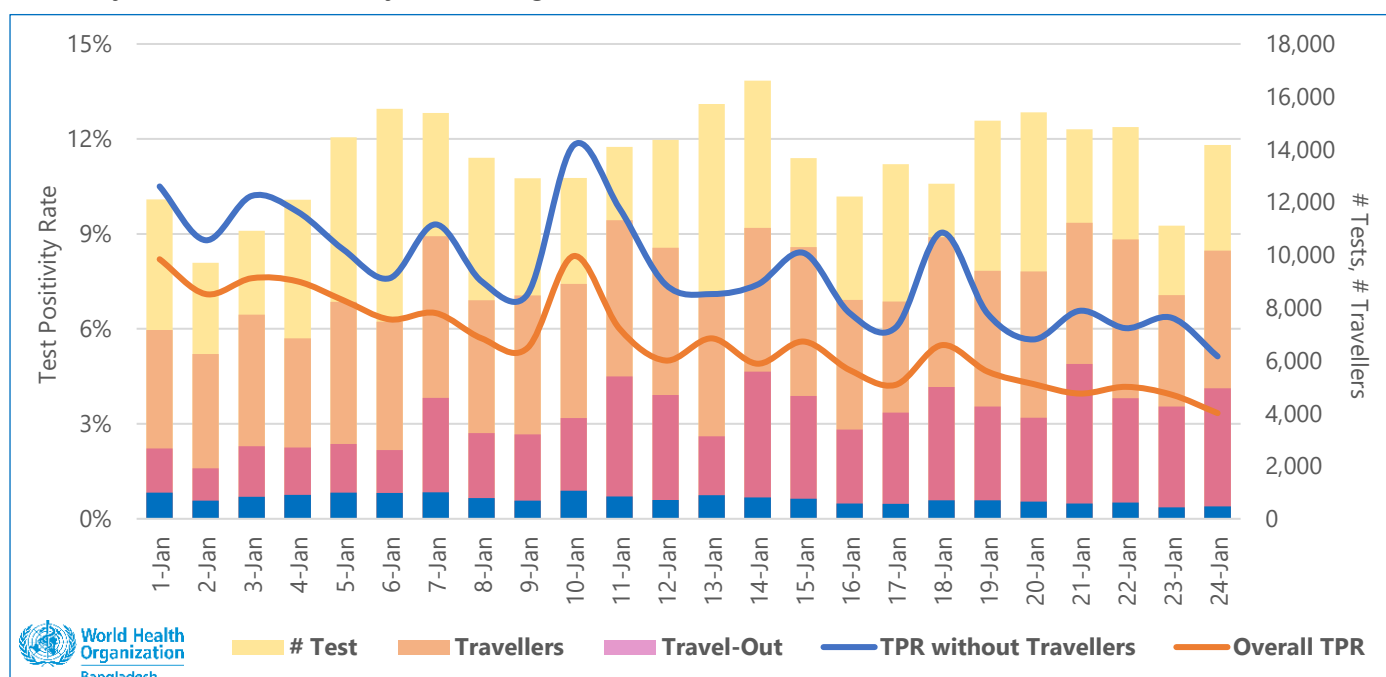

The graph below is showing weekly Tests and Positivity rate, 08 March 2020 – 17 January 2021, Bangladesh

4. Points of Entry & Quarantine

In the reported week (week 03, 2021), the number of international flights arrived at the designated international airport (HSIA) is same as it was last week (**188** flights) but the number of incoming passengers increased by **3.3%** (**33,000** and 31,936 respectively). In the reported week **385** individuals were sent to Institutional Quarantine after passenger screening at the Hazrat Shahjalal International Airport (HSIA).

The figure below is showing daily number of total Tests, number of Travellers via designated airport and Test Positivity Rate, 01 – 24 January 2021, Bangladesh

According to DGHS, as of 24 January 2021, the current institutional quarantine capacity in the country is represented by **629** centres across the 64 districts, which can receive **31,991** persons. A total of **46,398** individuals were placed in quarantine facilities and of them **43,218** (93.1%) have already been released. Over the same period, total of **98,670** individuals were isolated in designated health facilities and of them **87,930** (89.1%) have been released.

The table below is showing distribution of incoming travellers in last 14 days sent to Home Quarantine as captured through PoE Surveillance, 11 – 24 January 2021, Bangladesh

Dhaka Div.	12,183	Chattogram Div.	10,777	Khulna Div.	2,957	Sylhet Div.	2,660
