

Telemedicine in Action: Transforming healthcare for LMICs

Creating a Telemedicine-Ready Healthcare Workforce:
Training for Healthcare Providers

June 5th, 2025, 14.00 IST

Context: As telemedicine becomes central to healthcare delivery, a trained and adaptable workforce is key. This webinar explores how to equip healthcare providers with the skills needed to deliver quality telemedicine services.

Objectives:

Highlight best practices and challenges in training for telemedicine.
Share real-world examples across various healthcare settings.

Outcomes: Participants will

- Identify key skills needed for telemedicine delivery
- Learn from successful training programs
- Understand policymakers' roles in workforce development
- Gain strategies to scale telemedicine training effectively
