

BETTER HEALTH TO BUILD BACK BETTER

Building back better from the COVID-19 while advancing the 2030 Agenda

The COVID-19 pandemic highlighted the importance of:

- **Solidarity:** we need to ensure universal rights and equity, leaving no one behind;
- **Sustainability:** we need to innovate for people, the planet, prosperity and peace;
- **Systems:** we need resilient systems that provide health and wellbeing services at all times.

Join us for a virtual high-level panel of the 2022 High-Level Political Forum, hosted by WHO, to share innovations and best practices, and to mobilize commitments to an inclusive, inspiring vision of Health for All as an accelerator to achieve the SDGs.
