

# Three streams of opportunities

Demand for collective capacity boost to maintain and strengthen Thailand's leadership and proactive roles in global Health terrain

2x4 Model

**2** Core functions

Conceptual Framework

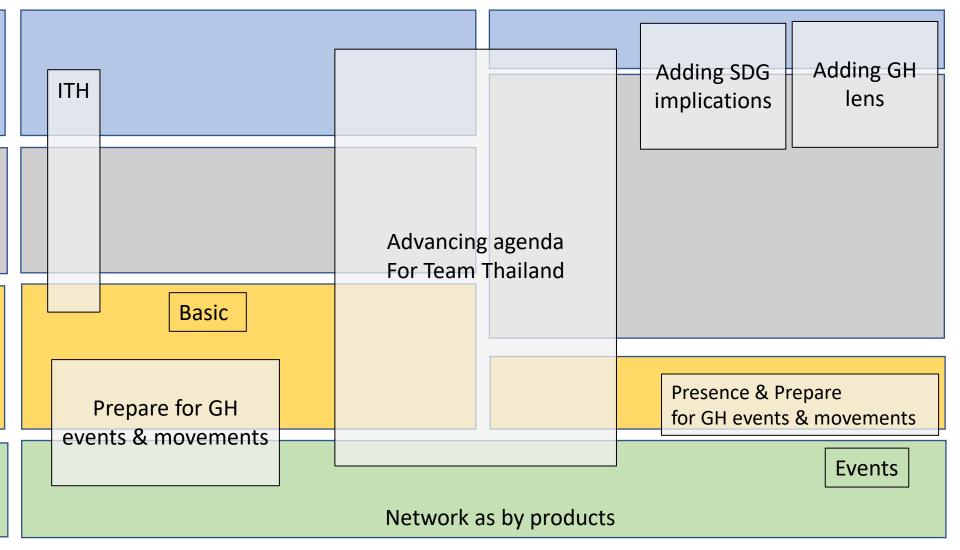

4 Strategic Actions

**Key Global Health agenda** 

Supporting functions

to other CCSs + partners

Knowledge Generation 4. Knowledge Management Capacity building 3. Collective Movements

#### **Vision**

Demonstrated leadership and contribution of Thailand in global health mechanisms

### **General objective**

To enhance Team Thailand's collective capacity for collective international movements towards good governance for sustainable health

### **Specific Objectives**

#1: Evidence to support preparedness for global health engagement

#2: Capacity of individuals and organizations for global health movements

**#3: Coordinated actions** for Thailand's movements

#### Strategic actions

#1: K. generation

#2 Capacity building

#3 Movements

#4 K. management

#### **5 C Principles**

Collectiveness

Collaboration

Compatibility

Catalysis

Constancy

- 1. Quality and availability of knowledge-in-demand to support global/regional movements
- 2. Expanded *platforms for movements*
- 3. Mobilized *system capacity*
- 4. Promoted *collaborations* at three levels
  - Across CCS programmes
  - Among domestic partners/actors
  - With other countries and international agencies

# Expected outcomes

- Demonstrated successes of Thailand for global health movements through multisectoral collaboration
- Demonstrated value-added to CCS programs, especially on SDG and GH implications

## Estimated budget 56.25 million Baht for 5 years (equally distributed to 11.25 m per year)
