Presentation Outline

- Opening remarks
- Background
- Mission, Vision, Goal and Objectives
- Working methods
- Next steps
- Discussion

Background

2000

2009

2022

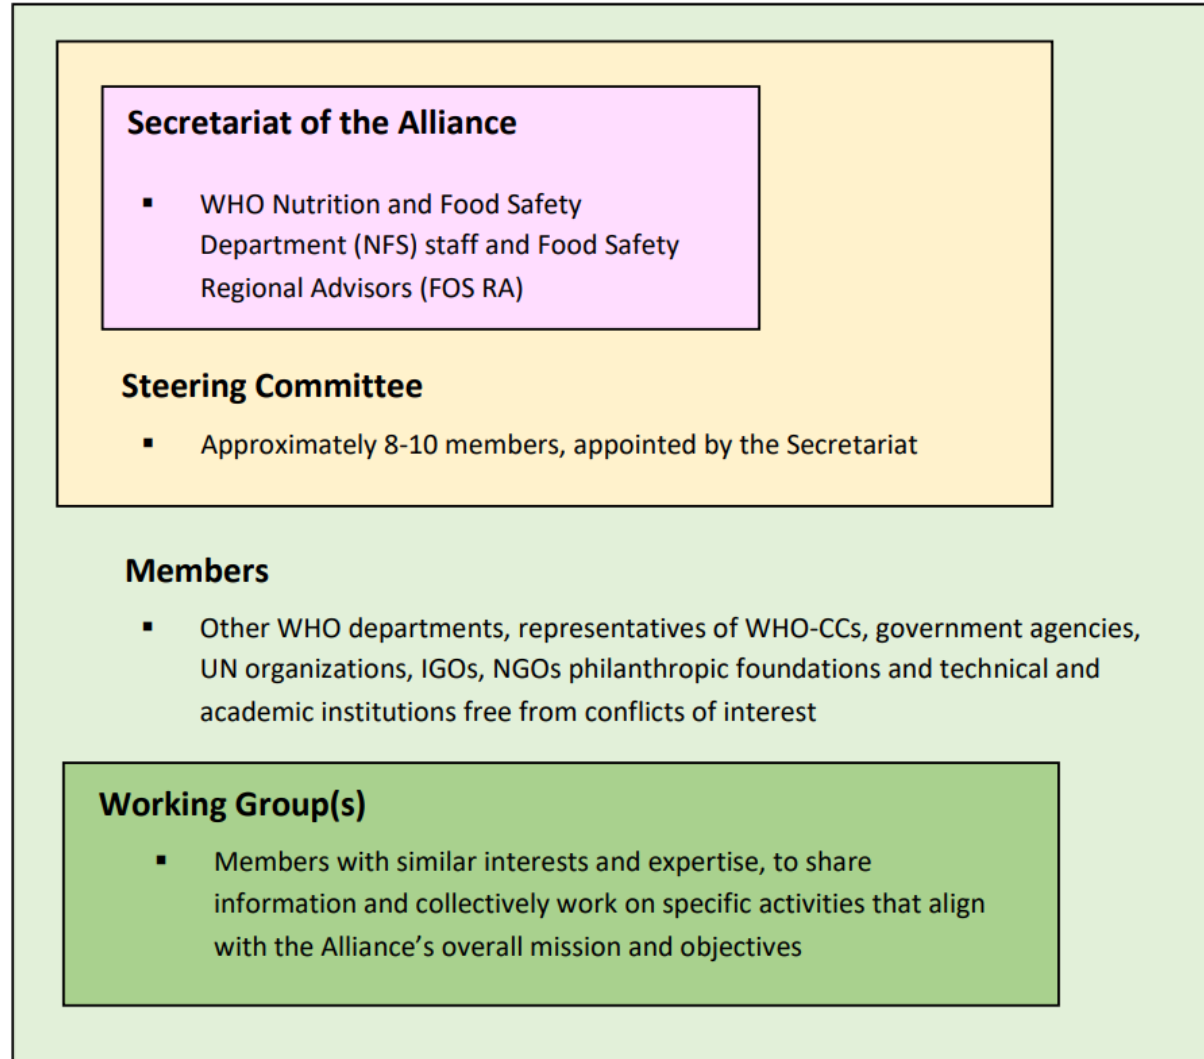

2024

Background

The Alliance membership consists of representatives from:

- WHO departments and offices (e.g. regional and country offices)
- WHO Collaborating Centres
- Government institutions with a mandate for public health, food safety, animal health or environmental health
- United Nations organizations
- Intergovernmental organizations
- Nongovernmental organizations
- Academic institutions
- Philanthropic foundations

Structure

Mission

- To guide and support Member States in:
 - prioritizing, planning, implementing, monitoring, evaluating actions to reduce the burden of foodborne diseases
 - continuously strengthening food safety and promoting global cooperation in accordance with WHO Global Strategy for Food Safety (2022-2030) + IHR + One Health
- Aligns with WHO's Fourteenth General Programme of Work (2025-2028): highlights the substantial global health burden caused by foodborne diseases and calls for comprehensive food safety measures along the food chain

Vision

Safe and healthy food for all through regional and global cooperation, collective commitment to accountability and mutual responsibility among stakeholders.

Goal

- A robust global network of WHO Collaborating Centres and other partners working collaboratively to implement the WHO GSFS 2022-2030
- Strengthened national food safety systems and reduced the incidence of foodborne diseases worldwide
- Enhanced multisectoral collaboration and improved foodborne disease surveillance and food contamination monitoring systems
- Drive a global initiative that:
 - Raises awareness about the importance of food safety
 - Mobilizes resources to support food safety programs
 - Fosters partnerships between WHO CCs, governments, international organizations, and other partners

Objectives

1) An enabling environment for multisectoral coordination and collaboration to implement the WHO Global Strategy for Food Safety (2022-2030), in particular on foodborne disease surveillance and food contamination monitoring

- Advocacy for legislative and policy frameworks
- Integrated foodborne disease surveillance and food contamination monitoring
- Multisectoral collaboration on surveillance
- Activity monitoring

Objectives

2) Advocate for and promote legal frameworks with provisions for surveillance of foodborne diseases and food contamination monitoring

- Advocacy for legal frameworks
- Advocacy for surveillance

Objectives

3) Build capacity in public health, animal health, and food safety analysis laboratories

- Capacity building
- Resource mobilization

Objectives

4) Generate and share quality data and information

- Data generation
- Data sharing

Objectives

5) Share best practices and lessons learned amongst Alliance members

- Experience sharing
- Peer-to-peer learning
- Diverse perspectives and innovation

Working methods

- Work plan developed with Alliance members and validated by a Steering Committee (3 years)
- Four member-led working group established to implement the workplan
- Secretariat taking forward cross-cutting activities in consultation with the Steering Committee

Focus of Working Groups

**FBD
surveillance
integration**

**Food safety
policy and
coordination**

**Lab capacity
building**

**Data and
awareness**

Next Steps

- Working Groups will convene regularly to take forward activities
- Steering Committee convening quarterly to monitor implementation of the workplan
- Next Alliance General Meeting to be scheduled in 2025 in Oman
- New members are welcome:
